The RPX client network is the largest and most successful collaborative effort to reduce the cost and risk of NPE litigation. In less than five years, the network has grown to 168 companies, ranging from early-stage firms to *Fortune 100* industry leaders.

As the network has steadily expanded, we have established strong representation in a wide array of sectors, both in core technology areas (E-commerce, mobile communications, networking, semiconductors, software, etc.) and increasingly in less traditional technology markets, such as financial services and automotive, where NPE litigation is on the rise.

The strength of our network is also reflected in a contract renewal rate above 90%, illustrating the viability and durability of RPX's patent risk solutions and our clients' belief in our ability to help them significantly reduce the cost of NPE litigation.

**We have solutions for large and small companies**

**We are making the patent market more rational**
