## RPX members-92/112

by Andrew Watson on 20 February 2012

To emphasise the points in the last post, here is a list of the RPX members that we've been able to identify by searching the Internet. We have been able to identify 92 of the reported 112. Assuming 3 or 5 year memberships, we don't believe that any of the 112 will have terminated.

How many of this list will be in category 4 below (yes interested in principle but should I take a defensive license now?) or 5 (definitely interested)? How many would, in the alternative, be open to acquiring some new high quality patent assets?

1. Acer Inc.
2. [Alcatel Lucent]
3. Amazon
4. Advanced Micro Devices, Inc.
5. Avaya Inc.
6. Atheros Communications Inc.

87. Verizon Wireless
88. Vivitek Corporation (Luxeon International Holding Ltd.)
89. Vonage Network LLC
90. Walgreen Co.
91. WowWee Group Ltd.
92. Zynga Inc.

Looking through the list it will be interesting to see how confidentiality is maintained. There's a pretty diverse bunch here, from Zynga to Cisco and everything in between. It's hard not to conclude that most are in RPX to mitigate NPE threats and will have little interest in much else.

ps. We expect the other 20 to include:

93. Facebook 94. Linkedin 95. Apple 96. Twitter 97. ZTE 98. Disney 99. Comcast 100. Charter 101. Time Warner Cable 102. Cox Communucations 103. Accenture 104. A number of banks and financial institutions.

These do need categorising. We're also exploring what the analysts have published.
