RPX is uniquely able to help members of our client network quickly and cost-effectively extricate themselves from NPE lawsuits. Our central, trusted position in the market enables us to negotiate with plaintiffs, acquire a license to the litigated patent and selectively clear our clients from the suit. Through September 30, 2013, we had achieved more than 414 dismissals for our clients in 62 litigations.

Our intervention is beneficial for both the plaintiff and the defendants. For NPE plaintiffs, we have the capital resources to offer a more compelling price than any single company will usually be willing to offer. We are also able to negotiate more dispassionately and effectively than a defendant in suit. For our clients, we act as a trusted representative to find a workable resolution and are able to achieve a far more cost-effective price for dismissal than any operating company can achieve unilaterally.
