ACTION CLOSING PROSECUTION

1. Introduction

This Office action addresses claims 1-60 of United States Patent No. 7,921,211 B2 (the "Larson" patent), for reexamination was granted in the Order Granting *Inter Partes* Reexamination (hereafter the "Order"), mailed January 18, 2012.

A non-final Office action accompanying said Order was also mailed January 18, 2012 rejecting all original claims 1-60 of the Larson patent (the "non-final Office action").

The patent owner responded by filing arguments and associated evidence on April 18, 2012 (the "Response").

The third party requester responded by filing Comments to the Patent Owner's Response on August 6, 2012 (the "Comments"). In the Comments, the third party requester responded to the patent owner's arguments.

The examiner has carefully considered the arguments and evidence provided in both the patent owner's Response and in the third party requester's Comments. Based on consideration of the entire record, the third party requester's arguments and evidence are deemed more persuasive. See the "Response to Arguments" section for further explanation. All prior rejections are
