**Subject:** Location Labs

Richard,

I am reaching out to you to have a dialogue around the three patent cases you have against AT&T, T-Mobile and Sprint. All three of these companies are Location Labs customers. We provide the Family Locator service to them which they sell to their subscribers and it is the same service that is being implicated in your lawsuit relating to Patent '970.

I would like to setup a call between you and myself to discuss the cases. Let me know the best time to call you.

Regards,

**Edward M. Abbati**  
Vice President of Finance
