1. I have been in private practice and litigating patent cases in particular for almost seven years, since my admission to the bar in November of 2007.

2. I have represented clients at all stages of the patent litigation process, from pre-filing investigations and drafting pleadings, to discovery and depositions, to motion practice, and jury trial. In many cases I have addressed specialized patent litigation topics such as claim construction briefing and infringement or invalidity contentions, as well as expert discovery including depositions and preparation of reports.

3. I also have four years of experience in the computer science industry, including positions in both software engineering and customer-facing technical advising and training. During my time in industry, I gained expertise in a wide variety of standard languages and tools relevant to the technologies of the '843 patent, including the Microsoft Windows API, Visual Studio and the Windows Software Development Kit, C++, web application programming, SQL, and object-oriented access to relational databases.

4. I am a member in good standing of the Bar of the State of California and am admitted to practice before the following Courts:

- United States District Courts for the Northern and Central Districts of California

- United States District Court for the District of Colorado

5. I have never been suspended, disbarred, sanctioned, or cited for contempt by and court or administrative body.

6. I have never had a court or administrative body deny my application for admission to practice.

7. I have read and will comply with Office Patent Trial Practice Guide and the Board's Rules for Practice for Trials, as set forth in Part 42 of the C.F.R.

8. I agree to be subject to the United States Patent and Trademark Office Rules of Professional Conduct set forth in 37 C.F.R. §§ 11.101 *et seq.* and disciplinary jurisdiction under 37 C.F.R. § 11.19(a).

9. In the past three (3) years, I have not appeared *pro hac vice* in any proceedings before the United States Patent and Trademark Office.

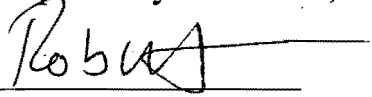

10. I am familiar with the subject matter at issue in this proceeding, as follows.

11. I have read the ' 843 patent that is subject to *Inter Partes* Review in this proceeding, and I have also read all of the prior art references that are asserted by petitioners to invalidate that patent.

12. I have also reviewed the IPR petition filed by counsel for Apple in this matter and I am familiar with its contents.

13. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code.
