v.
Cruise Control Technologies LLC

IPR2014-00279
Patent 6,324,463

Trial Hearing

Petitioner Subaru of America, Inc.'s Demonstrative
Exhibits DX-1 through DX-48 for March 24, 2015 Oral Argument

Brief Overview of the '463 Patent

U.S. Patent No. 6,324,463

(12) **United States Patent**
Patel

(10) **Patent No.:** US 6,324,463 B1
 (45) **Date of Patent:** Nov. 27, 2001

(54) **CRUISE CONTROL INDICATOR**

(76) **Inventor:** C. Kumar N. Patel, 1171 Roberts La., Los Angeles, CA (US) 90077

(*) **Notice:** Subject to any disclaimer, the term of this patent is extended or adjusted under 35 U.S.C. 154(b) by 0 days.

(21) **Appl. No.:** 09/310,527
 (22) **Filed:** May 12, 1999

Related U.S. Application Data

(60) Provisional application No. 60/085,183, filed on May 12, 1998.

(57) **ABSTRACT**

A system for indicating the operational status and parameters of a cruise control system for use in a human operated vehicle. The system includes apparatus for storing and recalling a preset speed for the cruise control system. The system further includes apparatus for indicating this preset speed to the operator, along with apparatus configured to indicate to the user whether or not the cruise control system is engaged. One embodiment is a system for use with vehicles with digital speedometers. In this embodiment, the system includes digital memory for storing the preset speed, and a digital display configured to show the preset speed and the operational status of the cruise control system. Another embodiment is for use with vehicles having analog speedometers. The analog system includes an array of LEDs and detectors arranged around a speed indicating dial and under the speedometer needle. The LEDs and detectors are arranged so that a preset speed may be stored into the system by detection of light reflected from one of the LEDs off a reflective surface on the back side of the needle, and onto one of the detectors. The LEDs of the analog system are further configured to indicate the preset speed and the operational status of the system.

36 Claims, 3 Drawing Sheets

Ex. 1001, '463 Patent

Filed:

- May 12, 1999

Issued:

- November 27, 2001

Claims at issue:

- Independent claims 1, 2, 12, 13, 18, 21, 25, 26, and 34
- Dependent claims 3 – 5, 14 – 16, 19, 20, 23, 27, 28, 30, 31, 35, and 36

U.S. Patent No. 6,324,463

'463 Patent File History

Applicant's inventive system and every system and method claim in the pending application, on the contrary, are directed only to the specific problem of providing preset cruise control speed information to the driver of a vehicle. The claims do not address the display information that corresponds to the actual driving speed of the vehicle. The pending claims only address the display of the speed of the vehicle as it was when the cruise control was set as a constant indicator/reminder to the driver of the speed to which the vehicle will resume after the cruise control speed is temporarily overridden (i.e. due to acceleration or deceleration).

Ex. 1002, '463 patent file history, at 105; Pet. at 11(citing same)

U.S. Patent No. 6,324,463

Ex. 1001, '463 Patent, Fig 1

Ex. 1001, '463 Patent, Fig 2

- “Figure 1 illustrates a digital speed display, while Figure 2 illustrates an analog speedometer.”
- “When a cruise control set button . . . is pressed, the vehicle speed is stored in digital memory . . . as a preset speed.”

Paper 19, Board Decision, at 2-3.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
