

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

MEDTRONIC, INC., MEDTRONIC VASCULAR, INC.,
and MEDTRONIC COREVALVE, LLC
Petitioner

v.

TROY R. NORRED, M.D.
Patent Owner

Cases IPR2014-00395
Patent 6,482,228

DECLARATION OF TROY R. NORRED, M.D.

NORRED EXHIBIT 2293 - Page 1
Medtronic, Inc., Medtronic Vascular,
Inc., & Medtronic Corevalve, LLC
- Troy R. Norred, M.D.

I, Troy R. Norred, M.D., declare as follows:

1. I am a citizen of the United States and a resident of Ada, Oklahoma. My post office address is P.O. Box 1780, Ada, Oklahoma 74821.

2. I am married and have four children, ages 16 through 25.

3. I currently am in private practice in Ada, Oklahoma as a board certified interventional cardiologist. As part of my practice, I see and treat patients suffering from cardiovascular illness. As part of the treatment I provide to these patients, I place vascular stents within the vascular tree of the body, in areas ranging from the heart to the abdomen and upper and lower extremities as well as cerebral-vascular vessels. I also place pacemakers and defibrillators into patients requiring them. I have experience with structural heart disease, including the diagnosis, management and treatment of valvular and congenital heart disease.

4. I attended college at East Central Oklahoma from 1986 through 1990, earning a Bachelor of Science in Biology. I attended medical school at the University of Oklahoma College of Medicine from 1990 through 1995, graduating with a Doctor of Medicine. I served my internship and then residency in internal medicine at the University of Oklahoma Health Science Center from 1995 through 1998, my cardiology fellowship at the University of Missouri from 1998 through August 2001, and my interventional cardiology fellowship at Louisiana State University New Orleans from August 2001 through August 2002.

5. I am the inventor of the replacement aortic valve described in United States Patent No. 6,482,228 (the “‘228 patent”) issued on November 19, 2002.

Date of Invention

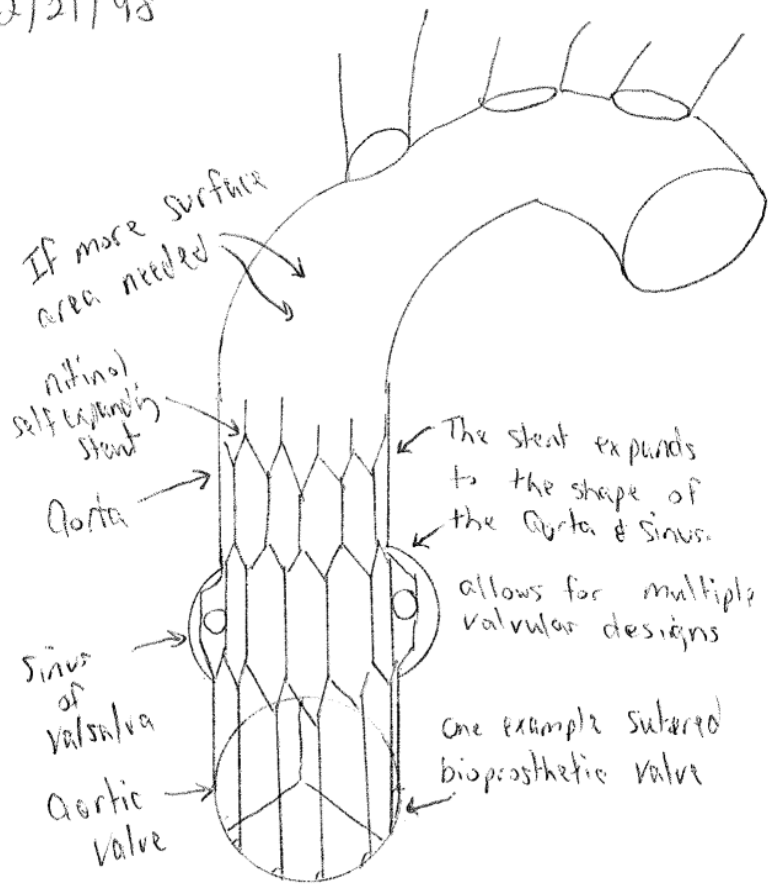

6. I completed this invention in the United States no later than December 21, 1998. On that date, to the best of my artistic abilities, I prepared a sketch of the prosthetic aortic valve described in the ‘228 Patent and signed the sketch before a Notary Public to confirm its authenticity. A true and correct copy of the notarized sketch is attached hereto as Exhibit 2203.

7. Exhibit 2203 depicts each limitation set forth in claims 16 and 20 of the ‘228 Patent. This is demonstrated as follows (the handwritten notes were part of the original drawing; the typewritten annotations were added for my declaration):

Claim 16

16. An aortic valve for regulating a blood flow through an aortic channel surrounded by an aortic wall upon placement therein

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
