Index

A Battery, 386 ideal model, 386 AC/DC rectifiers, 16-24 linear model, 387 single-phase, full-wave, controlled Thevenin model, 387 rectifiers, 22 Bluetooth, 164-182 single-phase, full-wave, Brushless DC motor drive uncontrolled rectifiers, 20 analysis, 404 single-phase, half-wave, controlled control, 404 rectifiers, 18 interior-mounted, 400 single-phase, half-wave, machine structure, 399 uncontrolled rectifiers, 16 sensorless techniques, 407 Aerospace sinusoidal shape back-EMF, 404 modeling, 257-272 surface-mounted, 399 power generation, 234 trapezoidal shape back-EMF, 401 stability, 237, 282-289 state estimation, 272-282 C Alternator, 78, 84 Automotive

B

communication networks, 138-183

Back-up power supply, 373

distribution system, 70

semiconductors, 132-138

steering systems, 120-131

wireless techniques, 138

Centralized digital controller, 300 Cogeneration, 365 Constant power loads, 428 Control strategies, 198 Control systems, 8 Controller area network, 140145 CAN error detection, 142 CAN message arbitration, 141 CAN message format, 141 time triggered CAN, 145

493

Cost analysis, 112 Cyclo-converter, 320

D

DC/AC inverters, 39-47, 266 current source, 315 load commutated, 318 pulse-width modulated inverters. 43, 319 square-wave, full-bridge inverters, voltage source, 315 DC/DC converters, 25-38 Boost converter, 30, 264 Buck converter, 26, 261 Buck-Boost converter, 34, 265 DC electrical power systems, 13 DC machines, 55 compound, 59 separately excited, 55 series, 57 shunt, 56 slotless armature, 311 Digital systems, 7 Distributed digital controller, 301 Distribution systems AC vehicular systems, 465 advanced automotive systems, 77 aircraft, 235-237 automotive, 70 hybrid, 483 hybrid electric vehicles, 195 sea and undersea vehicles, 304 zonal, 305-307

E

Earth orbiting system, 253
Electric circuits, 1
RC circuit, 3
RL circuit, 3
RLC circuit, 3
Electric dragsters, 219-224
Electric machines, 49-65

Electric vehicles, 189 Electrical loads advanced aircraft loads, 232 advanced automotive loads, 72 aircraft, 232 automotive, 72 sea and undersea, 307 Electrical power systems, 1, 11-13 14V electrical system, 70 42V electrical system, 73 42V electrical system for traction, 208-211 AC zonal electrical systems, 305 aircraft, 231-238 automotive, 67 DC zonal electrical systems, 306 integrated, 296 sea and undersea vehicles, 295-309 segregated, 295 space, 241-251 spacecraft, 251-257 Electromagnetism, 53 Electromechanical systems, 49

\mathbf{F}

Feedback control, 9 First harmonic approximation, 485 Flywheel, 249 Fourier series, 7 Frequency domain analysis, 10 Fuel cell, 335 aerospace applications, 362 alkaline, 343-345 direct methanol, 342 distributed generation, 365 electrical characteristics, 352 heavy-duty vehicles, 356 light-duty vehicles, 353 modeling, 388 molten carbonate, 340-341 operation, 335 phosphoric acid, 337-338 portable applications, 369 power processing system, 346

properties, 335
proton exchange membrane, 338340
solid-oxide, 341-342
structures, 335
telecommunication applications,
376
utility applications, 364-369
zinc air, 345

G

Gauss-Seidel load flow, 12 Generalized state space averaging, 259

H

Heavy-duty vehicles conventional, 212 fuel cell, 216, 356 hybrid electric, 214 Honda Insight, 204 Hybrid control strategies charge depleting, 201-202 charge sustaining, 200, 202 parallel, 200-202 practical models, 204-206 series, 202-204 Hybrid electric vehicles, 189 drivetrain architectures, 194 drivetrain principles, 190-194 electrical distribution systems, 195 more electric hybrid vehicles, 197 Hybridization, 206-208

I

IEEE 1394 protocol, 153-156 Induction machines, 59, 91, 99 Integrated power modules, 136 Integrated starter/alternator, 87-90 coupling configurations, 115-119 direct coupling, 117 offset coupling, 115 International space station, 242 K

Kirchhoff's law, 1

L

Laplace transform, 4
Lightly hybridized vehicles, 209-211
Local interconnect network, 161

M

Matrix converter, 321-325 Media oriented systems transport, 156 Modeling AC constant power loads, 468 aerospace power systems, 257-272 automotive power systems, 224energy storage devices, 385-397 multi-converter, 275 Motor drives adjustable speed, 314 current source, 315 cyclo-converters, 320 DC, 331 drives in sea and undersea vehicles, 309 multi-level, 325 variable frequency, 315 voltage source, 315 Multi-converter systems, 260, 269 Multi-level inverter, 325-331 cascaded single-phase H-bridge, 327 diode clamped, 325 flying capacitor, 326 hybrid H-bridge, 328 modulation technique, 330

N

Negative impedance instability, 430, 435, 453, 476

State estimation, 272-282

State space description, 11 Steer-by-wire, 127-132

State space averaging, 259, 440, 484

 \mathbf{o} Storage systems battery, 386 Ohm's law, 1 energy storage devices, 385-397 low-voltage, 211 P ultracapacitor, 393 Permanent magnet machines, 91-95, Super conducting, 312 100, 312 Switched reluctance machines, 95-99, interior-mounted, 400 107, 413 surface-mounted, 399 basic operation, 413 control techniques, 417 Per-unit quantity, 11 Phasors, 6 power electronic driver, 419 Photovoltaic (PV) cells, 390 torque-speed characteristics, 417 Power electronics, 15-47, 132, 367 Synchronous machines, 63 power electronics building blocks, 298-300 Power management center, 303 TERRA spacecraft, 253 Power network models, 11 Time domain analysis, 10 Power steering, 123-126 Torque-speed characteristics, 61, 64 electric power steering, 126-127 Toyota Prius, 204 \mathbf{U} Routh-Hurwitz criterion, 10 Ultracapacitors, 393-397 Russian ISS segment, 248 battery/ultracapacitor, 394 double layer model, 393 \mathbf{S} Undersea vehicles, 295 SAE J1850, 150-153 US ISS segment, 248 Satellite, 254 Sea vehicles, 295 V Semiconductor device technology, Vehicles 134-136 air, 231 Sensorless operation, 407 dynamics and control, 425-462 Signal-flow graphs, 8 fuel cell, 353-356 Sinusoidal excitation, 6 land, 67, 189 Sliding-mode control, 440 sea, 295 Spacecraft, 251 space, 241 Stability analysis, 10, 237, 282-289, undersea, 295 444, 456 Stabilizing controller, 440 Starter, 78, 81 Weighted least squares, 279

 \mathbf{X}

X-by-wire, 159
