ORDER  
Conduct of Proceeding  
37 C.F.R. § 42.5

IPR2014-00417  
Patent 7,579,802

On October 9, 2014, we received an email from Counsel for Petitioner Brose, indicating some concern regarding how we treat various claim challenges and a Motion for Joinder filed in inter partes review IPR2014-00650, petitioned by Webasto Roof Systems.

Petitioner seeks the opportunity to have a conference call related to this issue or at least to put into the record “a formal, but short statement of its position and concerns with respect to any potential joinder with respect to claims 11, 15 and 16 of the ’802 patent.”

A conference call is not necessary. Petitioner is hereby authorized to file a 5 page memorandum in IPR2014-00417 setting forth its position, on or before Thursday, October 16, 2014. Petitioner Brose is not a party to IPR2014-00650 and may not file any documents in that case. We are aware of Patent Owner’s position with regard to potential joinder. *See* IPR2014-00650, Paper 12.
