BROSE FAHRZEUGTEILE GMBH & CO. KG, HALLSTADT,
Petitioners

v.

UUSI, LLC
Patent Owner

Case No. IPR2014-00417
Patent No. 7,579,802

PETITIONERS' MOTION TO SUBMIT REPLACEMENT EXHIBITS

Pursuant to 37 C.F.R § 42.5, Petitioners Brose North America, Inc. and Brose Fahrzeugteile GmbH & Co. KG, Hallstadt (collectively, “Brose”) hereby move to replace certain exhibits that were filed with Brose’s Petition for *Inter Partes Review* via the Patent Review Processing System. Specifically, Brose seeks leave to replace BNA/Brose Exhibits 1007, 1008 and 1010 with corrected versions. Patent Owner UUSI, LLC (“UUSI”) has indicated that it does not oppose this motion. Authorization to file the motion was granted on October 7, 2014. *See* Order Conduct of Proceeding, Paper 25 (Oct. 7, 2014) at 2.

The exhibits at issue are publicly available U.S. Patents:

BNA/Brose Exhibit 1007	U.S. Pat. No. 4,870,333
BNA/Brose Exhibit 1008	U.S. Pat. No. 4,468,596
BNA/Brose Exhibit 1010	U.S. Pat. No. 6,064,165

The originally-filed exhibits were retrieved using Google Patent Search. It is Brose’s understanding that this resource incorrectly rendered certain Figures within the patents. Specifically, certain lines, portions of lines and other aspects within the Figures were omitted when the patents were printed. The portions of the exhibits that are defective are as follows¹:

¹ Side-by-side comparisons of examples of incomplete Figures in the originally-filed exhibits and the corresponding complete Figures in Brose’s proposed replacement exhibits are attached hereto as **Appendix A**.

BNA/Brose Exhibit 1007	U.S. Pat. No. 4,870,333	Incomplete images of the Figure found on page 1, as well as Figures 1, 2, 3, 5, 6, 7, 8, 9, 11, 12 and 13.
BNA/Brose Exhibit 1008	U.S. Pat. No. 4,468,596	Incomplete images of the Figure found on page 1, as well as Figures 1 and 2.
BNA/Brose Exhibit 1010	U.S. Pat. No. 6,064,165	Incomplete images of Figures 1A–1C, 2–5, 8–17, and 19–22.

The defects were first discovered the afternoon of September 25, 2014, during preparation for the September 26, 2014 deposition of Brose's declarant, Dr. MacCarley. Brose immediately took steps to address the issue, leading to this motion.

Complete versions of patents that are Exhibits 1007, 1008 and 1010 (*i.e.*, versions with complete Figures) were available at the deposition of Dr. MacCarley, and complete versions of the patents that are Exhibits 1007 and 1008 were marked as exhibits during the deposition. Complete versions of all three patents also were relied upon by Dr. MacCarley when conducting his work and preparing his declaration.

Brose seeks leave to correct the defects in the exhibits by replacing the exhibits with versions that contain complete Figures. Other than the portions of the exhibits identified above, the proposed replacement exhibits do not and will not differ in any way from the corresponding exhibits originally filed.

Motion to Submit Replacement Exhibits
Case No. IPR2014-00417

For the foregoing reasons, the Board should permit Brose to submit replacement exhibits for BNA/Brose Exhibits 1007, 1008 and 1010, and order the originally-filed exhibits expunged. To avoid confusion and preserve existing citations in the record, Brose proposes filing the replacement exhibits with the same exhibit numbers as originally used, titling them, for example “BNA/Brose Exhibit 1007 (corrected),” “BNA/Brose Exhibit 1008 (corrected),” *etc.*

Date: October 13, 2014

Respectfully submitted,

/s/ Craig Leavell

APPENDIX A

Comparisons of exemplary incomplete portions of BNA/Brose Exhibit 1007
(U.S. 4,870,333)

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
