RIGHT OF APPEAL NOTICE

1. Introduction

This Office action addresses claims 1-60 of United States Patent No. 7,418,504 B2 (the "Larson" patent), for which reexamination was granted in the Order Granting *Inter Partes* Reexamination (hereafter the "Order"), mailed December 29, 2011 in response to a Request for Inter Partes Reexamination, filed October 18, 2011 (the "Request").

An Action Closing Prosecution ("ACP") mailed September 26, 2012 rejected all original claims 1-60 of the Larson patent.

The patent owner responded by filing arguments and associated evidence on December 26, 2012 (the "Response").

The third party requester responded by filing Comments on the Patent Owner's Response on January 23, 2013 (the "Comments").

Evidence Submitted After the ACP

The patent owner submitted the Supplemental Declaration of Angelos D. Keromytis, Ph.D. on December 26, 2012 (the "Supplemental Declaration"), which was after the mailing date of said ACP. Evidence submitted after an action closing prosecution (§ 1.949) in an *inter partes* reexamination filed under § 1.913 but before or on the same date of filing an appeal (§ 41.31 or §

Art Unit: 3992

41.61 of this title), may be admitted upon a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. 37 CFR § 1.116(e). The patent owner did not set forth a showing why the Supplemental Declaration was necessary and was not earlier presented. After an ACP in an *inter partes* reexamination, the patent owner may once file comments limited to the issues raised in the Office action closing prosecution. 37 CFR § 1.951(a). Thus, the patent owner may not file additional comments showing why the Supplemental Declaration should be entered. The Supplemental Declaration is not of record in this proceeding. The examiner however has briefly reviewed the Supplemental Declaration, but it does not persuade the examiner to withdraw any rejection.

Conclusion

The examiner has fully considered the arguments and evidence of record provided in both the patent owner's Response and in the third party requester's Comments. Based on consideration of the entire record, the third party requester's arguments and evidence are deemed more persuasive. *See* the "Response to Arguments" section for further explanation. All prior rejections are maintained. Accordingly, this Office action is made a Right of Appeal Notice, which is a final Office action. *See* MPEP § 2673.01, .02. *See also* the "conclusion" section to this Office action.
