(1:00 p.m.)

JUDGE LEE: Good afternoon. Please be seated.

Welcome to the Board. This is the consolidated oral argument for two Inter Partes Reviews, IPR2014-00518 and IPR2014-00519.

The Petitioner is a collection of four different companies, and the Patent Owner is Rembrandt Wireless Technologies LP.

I would like to begin with introduction of counsel, starting with Petitioner, followed by Patent Owner, please.

MR. BAUGHMAN: Thank you, Your Honor. Steve Baughman from Ropes & Gray for the Samsung Petitioners. With me is Brian Biddinger and Dan Cardy. And we have with us a representative of Samsung, Michelle Yang.

JUDGE LEE: Thank you.

MR. ENGELLENER: Good afternoon, Your Honor. Tom Engellenner for the Patent Owner. With me is Reza Mollaaghababa, George Haight, Andrew Schultz, and we have a representative of Rembrandt as well, Mike Johnson.

JUDGE LEE: Thank you very much. We have allocated each party up to 90 minutes of argument time, but don't feel that you have to use up every single minute. Just use as much as you need to.

1 The Petitioner will present first. You can reserve
2 any amount of your time for rebuttal, and the Patent Owner
3 essentially will have only one opportunity at the podium, so
4 there is no opportunity to reserve anything. You spend all or
5 just part of your time in the one session that you are up.

6 Are there any preliminary questions before we
7 begin?

8 MR. BAUGHMAN: No, Your Honor.

9 MR. ENGELLENER: No, Your Honor.

10 JUDGE LEE: All right. You may begin any time,
11 Mr. Baughman.

12 MR. BAUGHMAN: May it please the Board. We
13 would like to reserve at the outset 40 minutes of our time for
14 rebuttal.

15 The Petitioners have provided our positions and
16 evidence in the briefing. We rely on that material to support
17 our arguments in this consolidated pair of trials. But to assist
18 the Board in considering that record we plan to address in our
19 opening discussion this afternoon two topics along with any
20 questions the Board may have.

21 And the two live issues before the Board are the
22 two topics we would like to discuss. After some brief opening
23 comments, first my colleague, Mr. Biddinger, will address the
24 obviousness of two different types of modulation methods
25 based on Boer, and then I will address the motivations to
