**DETAILED ACTION**

1. Claims 25-48 are in the application. Claims 1-24 have been canceled.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 31-48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 31 and claim 32, the conditional phrases "may" make this claims indefinite for the subject matter is not positively recited. In claim 31, last line, there is no proper antecedent for "the turn".

In claim 44, the reference to "program units" is ambiguous and in line 2, the conditional phrase makes this claim indefinite.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Application/Control Number: 09/787,723  
Art Unit: 3617

Page 3

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 25-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Elholm.
- Elholm discloses the method and apparatus as recited in the claims except that in the claims a plurality of positioning devices along the streamers is recited. The use of a plurality of positioning devices is well known in the art as evidenced from the disclosure in figure 1 of the present application and acknowledged as "Prior Art".

#### *Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Convoy and Dolengowski are cited as showing related art.
