v.

ZOND, LLC
Patent Owner

Case No. IPR2014-00800¹

Patent 7,811,421 B2

PATENT OWNER'S NOTICE OF APPEAL
35 U.S.C. § 142 & 37 C.F.R. § 90.2

¹ Cases IPR 2014-00844, IPR 2014-00991, and IPR 2014-01037 have been joined
with the instant proceeding.

Pursuant to 37 C.F.R. § 90.2(a), Patent Owner, Zond, LLC, hereby provides notice of its appeal to the United States Court of Appeals for the Federal Circuit for review of the Final Written Decision of the United States Patent and Trademark Office (“USPTO”) Patent Trial and Appeals Board (“PTAB”) in *Inter Partes* Review 2014-00800, concerning U.S. Patent 7,811,421 (“the ’421 patent”), entered on October 2, 2015, attached hereto as Appendix A.

ISSUES TO BE ADDRESSED ON APPEAL

- A. Whether the PTAB erred when construing, according to its broadest reasonable interpretation in light of the specification of the ‘421 patent as understood by one of ordinary skill in the art at the time of the invention, the term “without an occurrence of arcing,” as recited in the claims of the ‘421 patent, as “substantially eliminating the possibility of developing an electrical breakdown condition in the chamber?”
- B. Whether the PTAB erred when construing, according to its broadest reasonable interpretation in light of the specification of the ‘421 patent as understood by one of ordinary skill in the art at the time of the invention, the term “creates a weakly-ionized plasma and then a strongly-ionized plasma from the weakly-ionized plasma,” as recited in the claims of the ‘421 patent, as “brings into existence a weakly-ionized plasma?”

- C. Whether the PTAB erred in finding claims 1, 2, 8, 10–13, 16, 17, 22–25, 28–30, 33, 34, 39, 42, 43, and 46–48 unpatentable as being anticipated under 35 U.S.C. § 102 by U.S. Pat. 6,413,382 to Wang (“Wang”)?
- D. Whether the PTAB erred in finding claims 15, 27, and 38 unpatentable as being obvious under 35 U.S.C. § 103 in view of Wang and D.V. Mozgrin et al., *High-Current Low-Pressure Quasi-Stationary Discharge in a Magnetic Field: Experimental Research*, 21 PLASMA PHYSICS REPORTS 400–409 (1995) (“Mozgrin”)?

Simultaneous with submission of this Notice of Appeal to the Director of the United States Patent and Trademark Office, this Notice of Appeal is being filed with the Patent Trial and Appeal Board. In addition, this Notice of Appeal, along with the required docketing fees, is being filed with the United States Court of Appeals for the Federal Circuit.

Respectfully submitted,

Dated: November 27, 2015

/Tarek N. Fahmi/

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
