JUDGE BONILLA: This is the trial hearing for IPR2014-01030, and IPR2014-01493 which has been joined with this proceeding, between Petitioner, Taiwan Semiconductor Manufacturing Company, in relation to the 1030 case, and Samsung Electronics Company, in relation to the 1493 case, versus owner of U.S. Patent Number 5,652,084, DSS Technology Management Corporation.

Just a few administrative matters before we begin. As you can tell, Judge Kalan is joining us from Denver. Please note the location of the camera. It will be easier for her to hear and see you if you can speak to the camera when you are talking to her.

If you wish to present any demonstratives, it is very helpful if you can describe the slides by slide number. That makes it easier for us to follow, and particularly Judge Kalan to follow along, and makes it easier for the transcript, for us to read the transcript later.

As you know, based on our order, each party has 45 minutes to present their argument. Because Petitioner has the burden to show unpatentability of the challenged claims, Petitioner will go first, followed by Patent Owner. Petitioner may reserve rebuttal time, but it may only use its time to rebut Patent Owner's arguments.
