1 32. (CANCELLED)

1 33. (CANCELLED)

1 34. (CANCELLED)

1 35. (PREVIOUSLY PRESENTED): A method for information handling within a document
2 created using a first application program comprising the steps of:

3 entering a first information in the first application program;

4 marking without user intervention the first information to alert the user that the first
5 information can be utilized in a second application program; and

6 responding to a user selection by inserting a second information into the document,
7 the second information associated with the first information from a second application
8 program.

1 36. (PREVIOUSLY PRESENTED): The method of claim 35 wherein the user selection
2 further comprises an activation of a device selected from a group consisting of a touch
3 screen, a keyboard button, a screen button, an icon, a menu, and a voice command device.

1 37. (PREVIOUSLY PRESENTED): The method of claim 35, wherein the step of inserting
2 the second information into the document further comprises the steps of:

3 initializing the second application program;

4 searching, using the second application program, for the second information
5 associated with the first information; and

6 retrieving the second information.

1 38. (PREVIOUSLY PRESENTED): The method of claim 37, wherein when the second
2 application program includes second information associated with the first information,
3 performing the further step of displaying the second information.

1 39. (PREVIOUSLY PRESENTED): The method of claim 38, further comprising the step of
2 completing at least one of the first and second information in the document.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
