I, John Garney, declare and state as follows:

I. INTRODUCTION

1. I have been retained by Kaye Scholer LLP at the rate of $275 per hour to provide opinions in connection with the *Inter Partes* review of U.S. Patent Nos. 6,249,825 (the "`825 patent"). My compensation is not affected by the outcome of this proceeding.

2. I have no financial interest in any of the parties, or the `825 patent.

II. QUALIFICATIONS

3. I received a Bachelor's of Science in Mathematics and a Bachelor's of Science in Computer Science from Purdue University in 1978. I received a Master's of Science in Computer Science from Purdue University in 1980.

4. I was employed by Intel Corporation from 1980 through 2007 with two years (1988-1989) spent in a joint venture (BiiN) spun off by Intel/Siemens. I held a variety of positions while at Intel, starting as a Software Evaluation Engineer and finally as a Senior Staff Systems Architect in the Research and Development part of the Corporate Technology Group.

5. While employed at Intel Corporation as a software architect in 1991, I was Intel's software representative to the Personal Computer Memory Card International Association ("PCMCIA"). As part of my responsibilities as Intel's representative, I extensively reviewed the pre release 2.0 specification and discussed and debated clarifications and corrections to the specification in several full membership meetings.

6. I co-defined the Socket Services and Card Services portions of the
