Contents

Preface xi
Artwork Acknowledgments xiv

1 Introduction **1**
1.1 General overview 1
1.2 Classification of flow-induced vibrations 3
1.3 Scope and contents of volume 1 4
1.4 Contents of volume 2 5

2 Concepts, Definitions and Methods **6**
2.1 Discrete and distributed parameter systems 6
2.1.1 The equations of motion 8
2.1.2 Brief review of discrete systems 9
2.1.3 The Galerkin method via a simple example 12
2.1.4 Galerkin's method for a nonconservative system 16
2.1.5 Self-adjoint and positive definite continuous systems 17
2.1.6 Diagonalization, and forced vibrations of continuous systems 18
2.2 The fluid mechanics of fluid–structure interactions 23
2.2.1 General character and equations of fluid flow 23
2.2.2 Loading on coaxial shells filled with quiescent fluid 36
2.2.3 Loading on coaxial shells filled with quiescent viscous fluid 46
2.3 Linear and nonlinear dynamics 51

3 Pipes Conveying Fluid: Linear Dynamics I **59**
3.1 Introduction 59
3.2 The fundamentals 60
3.2.1 Pipes with supported ends 60
3.2.2 Cantilevered pipes 63
3.2.3 On the various bifurcations 67
3.3 The equations of motion 69
3.3.1 Preamble 69
3.3.2 Newtonian derivation 71
3.3.3 Hamiltonian derivation 76
3.3.4 A comment on frictional forces 82
3.3.5 Nondimensional equation of motion 83
3.3.6 Methods of solution 84

LINDA HALL LIBRARY

3.4 Pipes with supported ends . . . 88
3.4.1 Main theoretical results . . . 88
3.4.2 Pressurization, tensioning and gravity effects . . . 98
3.4.3 Pipes on an elastic foundation . . . 102
3.4.4 Experiments . . . 103
3.5 Cantilevered pipes . . . 111
3.5.1 Main theoretical results . . . 111
3.5.2 The effect of gravity . . . 115
3.5.3 The effect of dissipation . . . 118
3.5.4 The S-shaped discontinuities . . . 123
3.5.5 On destabilization by damping . . . 130
3.5.6 Experiments . . . 133
3.5.7 The effect of an elastic foundation . . . 149
3.5.8 Effects of tension and refined fluid mechanics modelling . . . 150
3.6 Systems with added springs, supports, masses and other modifications . . . 153
3.6.1 Pipes supported at $\xi = l/L < 1$ . . . 153
3.6.2 Cantilevered pipes with additional spring supports . . . 157
3.6.3 Pipes with additional point masses . . . 164
3.6.4 Pipes with additional dashpots . . . 167
3.6.5 Fluid follower forces . . . 168
3.6.6 Pipes with attached plates . . . 170
3.6.7 Concluding remarks . . . 172
3.7 Long pipes and wave propagation . . . 173
3.7.1 Wave propagation . . . 173
3.7.2 Infinitely long pipe on elastic foundation . . . 174
3.7.3 Periodically supported pipes . . . 178
3.8 Articulated pipes . . . 183
3.8.1 The basic dynamics . . . 184
3.8.2 *N*-Degree-of-freedom pipes . . . 186
3.8.3 Modified systems . . . 190
3.8.4 Spatial systems . . . 194

4 Pipes Conveying Fluid: Linear Dynamics II **196**
4.1 Introduction . . . 196
4.2 Nonuniform pipes . . . 196
4.2.1 The equation of motion . . . 196
4.2.2 Analysis and results . . . 203
4.2.3 Experiments . . . 208
4.2.4 Other work on submerged pipes . . . 211
4.3 Aspirating pipes and ocean mining . . . 213
4.3.1 Background . . . 213
4.3.2 Analysis of the ocean mining system . . . 214
4.3.3 Recent developments . . . 217
4.4 Short pipes and refined flow modelling . . . 220
4.4.1 Equations of motion . . . 221
4.4.2 Method of analysis . . . 224

DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS
Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS
Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS
Sync your system to PACER to automate legal marketing.
