account director. Jim offers extensive experience in data storage technologies and brings specific expertise in establishing vertical market growth in media and entertainment, telecommunications, research and development and medical markets. Additionally, Jim has successfully leveraged the storage channel to attain significant revenue goals. Prior to Crossroads, he held various sales and marketing leadership positions at Sun and EMC. He holds a degree from San Diego State University.

**Jennifer Crane**

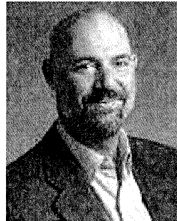

Chief Financial Officer

Jennifer Crane is the chief financial officer at Crossroads Systems. She joined the Crossroads team in 2003 and currently leads the company's financial and legal operations. Her chief objective is to manage Crossroads' financial performance and position the company for future growth while it continues to expand its portfolio of data protection and preservation solutions. An accomplished accounting and financial expert, Jennifer brings more than 20 years of hands-on experience in financial management and auditing. Prior to joining Crossroads, Jennifer held senior positions at leading firms such as Deloitte & Touche LLP and Price Waterhouse Coopers LLP. A certified public accountant, Jennifer is an active member of the Financial Executive Institute (FEI) association as well as the American Institute of Certified Public Accountants (AICPA). She holds a degree in business administration from the University of Texas at Austin.

**David Cerf**

Executive Vice President of Strategy and Business Development

David Cerf is executive vice president of strategy and business development at Crossroads Systems. With more than 25 years of corporate development experience in the IT industry, David is a frequent speaker on data growth, storage and protection issues at several national industry conferences. Joining Crossroads in 2005, he currently leads global efforts to expand Crossroads innovative data protection solutions and develop relationships with key early technology adopters. Serving as a key member of Crossroads' executive team, he helps distinguish the company's future product roadmap and overall business direction. Prior to joining Crossroads, David served as vice president of sales and business development at NexQL, a leading provider of advanced database acceleration technologies. He was also a co-founder of 360World, a national provider of video and imaging solutions. In 1988, as the founder and managing director of the Dallas Business Incubator, he was responsible for the development and funding of more than 50 new high-growth startup companies.

**Mark Hood**

Executive Vice President of Corporate Development

Mark Hood is executive vice president of corporate development at Crossroads Systems. His areas of responsibility include marketing, investor relations and supporting the company's patent monetization program. With more than 25 years of experience in growing and investing in early stage companies, he leads Crossroads' efforts in educating prospective customers, partners and investors on the unique value that Crossroads' data protection and storage solutions provide. From 1995 to 2000, he was CEO of Network Consulting Services, a telecommunications agency. Mark was the founder of MCH Advisors, a consultancy that helped clients increase revenue by improving their sales, marketing and communication initiatives. Mark earned a BA in Marketing from Sam Houston State University and an MS in Technology Commercialization from The University of Texas

at Austin, McCombs School of Business. He is also a recipient of the George Kozmetsky Award for Academic Excellence.

Bernd R. Krieger

Director of European Sales

Bernd R. Krieger is the director of European sales at Crossroads Systems. With more than 30 years of experience in the data storage and backup industry, he brings strong relationships with established partners and resellers throughout the IT industry as well as Global 1000 companies. Bernd joined Crossroads in 2007 as the head of European sales. Previously, he held general manager and CEO positions at several IT companies, gaining lengthy experience in sales and multi-country operations. He has served as general manager of sales and marketing at Data Global GmbH, CEO of Entire Software AG, and director of international sales at Grau (ADIC).
