[Table of Contents](#)**DISCLOSURE REGARDING FORWARD LOOKING STATEMENTS**

We make "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 throughout this report. Whenever you read a statement that is not simply a statement of historical fact (such as when we describe what we "believe," "intend," "plan," "estimate," "project," "expect" or "anticipate" and other similar statements), you must remember that such statements are based on our current beliefs, expectations, estimates, and assumptions and that our expectations, estimates and assumptions may not be achieved, even though we believe they are reasonable. We do not guarantee that any future transactions or events described herein will happen as described or that they will happen at all. You should read this report completely and with the understanding that actual future results may be materially different from those expressed in, or implied, or projected by the forward-looking statements and information. Whether actual events or results will conform to our expectations and predictions is subject to a number of risks and uncertainties, many of which are difficult to predict and generally beyond our control.

For further discussion of these risks and uncertainties, see Item 1A. Risk Factors of this Annual Report on Form 10-K. The risks and uncertainties include, but are not limited to, the following:

**General Risks Affecting Our Business**

- We currently derive a significant portion of our revenue from our primary customer, DISH Network Corporation ("DISH Network"). The loss of, or a significant reduction in, orders from, or a decrease in selling prices of digital set-top boxes, transponder leasing, provision of digital broadcast services, broadband equipment and services and/or other products or services to DISH Network would significantly reduce our revenue and adversely impact our results of operations.
- We could face decreased demand and increased pricing pressure to our products and services due to competition.
- The average selling price and gross margins of our digital set-top boxes have been decreasing and may decrease even further, which could negatively impact our financial position and results of operations.
- If significant numbers of television viewers are unwilling to pay for pay-TV services that utilize digital set-top boxes, we may not be able to sustain our current revenue level.
- We may have unused satellite capacity in our EchoStar Satellite Services segment, and our results of operations may be materially adversely affected if we are not able to lease this capacity to third parties, including DISH Network.
- The failure to adequately anticipate the need for satellite capacity or the inability to obtain satellite capacity for our Hughes segment could harm our results of operations.
- We are dependent upon third-party providers for components, manufacturing, installation services, and customer support services, and our results of operations may be materially adversely affected if any of these third-party providers fail to appropriately deliver the contracted goods or services.
- Our foreign operations expose us to regulatory risks and restrictions not present in our domestic operations.
- We may experience significant financial losses on our existing investments.
- We may pursue acquisitions and other strategic transactions to complement or expand our business, which may not be successful and we may lose a portion or all of our investment in these acquisitions and transactions.

[Table of Contents](#)

- We may not be able to generate cash to meet our debt service needs or fund our operations.
- Covenants in Hughes Satellite Systems Corporation's ("HSS") indentures restrict its business in many ways.
- We rely on key personnel and the loss of their services may negatively affect our businesses.

**Risks Related to Our Satellites**

- Our owned and leased satellites in orbit are subject to significant operational and environmental risks that could limit our ability to utilize these satellites.
- Our satellites have minimum design lives ranging from 12 to 15 years, but could fail or suffer reduced capacity before then.
- Our satellites under construction are subject to risks related to construction and launch that could limit our ability to utilize these satellites.
- We generally do not have commercial insurance coverage on the satellites we use and could face significant impairment charges if one of our uninsured satellites fails.
- Our use of certain satellites is often dependent on satellite coordination agreements, which may be difficult to obtain.
- Our dependence on outside contractors could result in delays related to the design, manufacture and launch of our new satellites, which could in turn adversely affect our operating results.

**Risks Related to Our Products and Technology**

- If we are unable to properly respond to technological changes, our business could be significantly harmed.
- Our future growth depends on growing demand for advanced technologies.
- Our business depends on certain intellectual property rights and on not infringing the intellectual property rights of others. The loss of our intellectual property rights or our infringement of the intellectual property rights of others could have a significant adverse impact on our business.
- We are party to various lawsuits which, if adversely decided, could have a significant adverse impact on our business, particularly lawsuits regarding intellectual property.
- If the encryption and related security technology used in our digital set-top boxes is compromised, sales of our digital set-top boxes may decline.
- We rely on network and information systems and other technologies and a disruption, cyber-attack, failure or destruction of such networks, systems or technologies may disrupt or harm our business.
- If our products contain defects, we could be subject to significant costs to correct such defects and our product and network service contracts could be delayed or cancelled, which could adversely affect our revenue.

**Risks Related to the Regulation of Our Business**

- Our business is subject to risks of adverse government regulation.
