Thanks Justin.

I included all the details I have found (I'm not entirely sure they are all relevant) to show you as fully as I could what I think the issues are with the named Petitioner. Honestly, PTAB practice is not part of my practice (I draft and prosecute patents) so I'm a bit out on a limb at this point – so sorry if there is non-typical information, I just thought it best to be as clear with what I'm seeing as possible to keep from wasting anyone's time.

Very Truly Yours,
