(57) **ABSTRACT**

(52) **U.S. Cl.** **235/380; 235/375; 235/379; 235/487**

In one embodiment, a graphical user interface includes a conversion option to convert at least a subset of non-negotiable credits earned from one into entity independent funds in accordance with a conversion ratio. The entity independent funds are accepted by a commerce partner as at least partial payment for goods or services provided by the commerce partner. In absence of converting the non-negotiable credits into entity independent funds, the commerce partner does not accept the non-negotiable credits as payment for goods or services. Responsive to a received selection of the conversion option, the computer presents within the graphical user interface a quantity of available entity independent funds for use as payment for the goods or services provided by the commerce partner. The quantity of available entity independent funds results from converting the subset of non-negotiable credits into the quantity of available entity independent funds in accordance with the conversion ratio.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
