BENEFITS

Portable Performance

The powerful Stylistic ST4000 Series Tablet PC is a no-compromise PC which incorporates an ultra low voltage Mobile Intel® Pentium® III processor 800MHz-M which supports enhanced Intel SpeedStep™ technology running Microsoft® Windows® XP Tablet PC Edition OS. Windows XP Tablet PC Edition, a superset of Windows XP Professional, adds unique pen and ink capabilities to all Windows XP compliant applications.

Flexible connectivity

Mobile workers have a choice of carrying the weight-balanced Stylistic ST4000 Tablet PC like a notepad or accompanied by a keyboard just like a notebook computer. The innovative Stylistic ST Series Tablet Dock¹, designed with ease-of-use in mind, transforms the system into a complete desktop computer. The Tablet Dock features easy rotation to optimize application viewing, multiple plug-and-play ports, and a modular bay to accommodate a choice of optical drives, such as a CD-ROM or DVD/CD-RW combination drive.

Network Connectivity

Eliminate the dongles and connect when and where you need to with integrated modem and fast 10/100 Ethernet. With the 802.11b Wi-Fi™ model, you can stay connected knowing your data is protected by industry standard wireless security protocols.

Complete Solutions

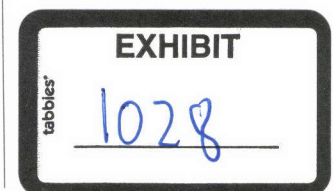

The Stylistic ST4000 Series Tablet PC combines technology with a sleek package that offers reliability and uncompromising performance, while satisfying the stringent demands of corporations. Fujitsu provides a complete set of accessories including protective cases, docks, battery chargers, and memory upgrades.

Quality and Reliability

The close interaction between Fujitsu design, manufacturing and service engineers creates some of the highest quality products offered in the PC market. In a time when most PCs are assembled by third-party vendors, Fujitsu takes pride in its own world-class design and manufacturing capabilities.
