## About This Guide

This guide provides technical information on the Fujitsu Stylistic ST4000 Tablet PC for technicians, hardware developers, and software developers.

## Organization

This guide is organized as follows:

- **Chapter 1: Tablet PC Features**  
This chapter discusses some of the system's main features and technology.
- **Chapter 2: System Software**  
This chapter gives an overview of system software and utilities preinstalled on the Stylistic ST4000 Tablet PC.
- **Chapter 3: Configuring the Stylistic ST4000 Tablet PC BIOS**  
This chapter provides details on using BIOS Setup Utility for the Stylistic ST4000 Tablet PC. BIOS configuration options are explained in detail.
- **Chapter 4: Hardware Specifications**  
This chapter gives hardware specifications on the Tablet PC system. Industry standards supported by the Stylistic ST4000 Tablet PC are listed.
- **Chapter 5: Peripheral Interfaces**  
This chapter provides details on peripheral interfaces provided by the Stylistic ST4000 Tablet PC and the Stylistic ST4000 Tablet Dock.
- **Chapter 6: System Power**  
This chapter provides information on the Tablet PC's system power hardware.
- **Chapter 7: Installing Hardware Options**  
This chapter gives detailed instructions on installing hardware options such as PCMCIA Cards and DIMM cards. (For instructions on replacing the internal hard disk drive, see "Replacing the IDE Hard Disk Drive" on page 53.)
- **Appendix A: Replacing the IDE Hard Disk Drive**  
This appendix provides instructions on removing and replacing the system's built-in IDE hard disk drive.
- **Appendix B: AT Command Set**  
This appendix provides a detailed list of AT commands used by the Tablet PC's modem, including AT Commands, S Register Table, and Result Codes Summary information.
- **Appendix C: Agency Notices**  
This appendix states notices required by regulatory agencies in the United States and Canada that apply to the Stylistic ST4000.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
