1 MR. MAURIEL: Hi. My name is Mike Mauriel.
2 I'm lead counsel for Aplix IP Holdings Corp, and I'm with my
3 co-counsel, Robert Gilbertson.

4 JUDGE MOORE: Thank you.

5 All right. I also want to remind the parties as far as
6 referring to demonstrative exhibits and evidence, especially if
7 you're going to use the -- I'm not sure if we have the ELMO, but
8 if you are going to use the ELMO, please be specific for the
9 record on what page number and what part of the record you're on
10 in your remarks so that the transcript will be clear and easy to
11 follow.

12 MR. BURESH: Your Honor, if you could give us
13 just one moment. We're trying to find the right feed for the slide
14 presentation.

15 JUDGE MOORE: Sure.

16 Off the record.

17 (A discussion was held off the record.)

18 JUDGE MOORE: Back on the record.

19 MR. BURESH: I'm approaching with hard copies.

20 JUDGE CHUNG: Thanks.

21 MR. BURESH: Thank you.

22 JUDGE MOORE: Okay. It looks like you're
23 having a little bit of trouble here.

24 Does it make sense that we start with hard copy?

25 We've got everyone local.

1 MR. BURESH: I am perfectly fine with that, Your
2 Honor.

3 JUDGE MOORE: That might be the best way to
4 go here.

5 MR. BURESH: Absolutely. And my apologies for
6 the delay.

7 JUDGE MOORE: No problem.

8 MR. BURESH: I'm going to cover, just to orient
9 the Board --

10 JUDGE MOORE: And before you start, would you
11 like to reserve time?

12 MR. BURESH: Yes, Your Honor.

13 We are going to cover in our direct portion all of
14 the proceedings. We plan to take about 60 minutes for that and
15 reserve approximately 30 minutes for rebuttal.

16 To orient the Board, I'm going to be discussing the
17 '692 patent proceeding, which is 00229, as well as the '245 patent
18 proceeding. My colleague, Mr. Kean, will cover the three
19 proceedings related to the '313 patent.

20 If I could refer the Board to DX-2, I'm going to
21 begin by discussing at a high level the '692 patent. What I've
22 provided on DX-2 is the abstract of the '692 patent which
23 discusses the basic concepts of that patent. And what we'll see is
24 that the patent in the '692 really recognized the simple idea that
25 the human hand works in opposing function -- in other words, we
