Report of Independent Auditors

To the Board of Directors and Shareholders of
LG Electronics Inc.

We have audited the accompanying consolidated statements of financial position of LG Electronics Inc. and its subsidiaries (collectively the "Group") as of December 31, 2013, December 31, 2012 and January 1, 2012, and the related consolidated statements of income, comprehensive income, changes in equity and cash flows for the years ended December 31, 2013 and 2012, expressed in Korean won. These financial statements are the responsibility of the Group's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of certain consolidated subsidiaries, whose financial statements represent 37% of the Group's consolidated total assets as of December 31, 2013, December 31, 2012 and January 1, 2012, respectively, and 53% and 54% of the Group's consolidated total sales for the years ended December 31, 2013 and 2012, respectively. These statements were audited by other auditors whose reports have been furnished us and our opinion, insofar as it relates to the amounts included for those subsidiaries, is based solely on the reports of other auditors.

We conducted our audits in accordance with auditing standards generally accepted in the Republic of Korea. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits and the reports of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Group as of December 31, 2013, December 31, 2012 and January 1, 2012, and their financial performance and cash flows for the years ended December 31, 2013 and 2012, in conformity with International Financial Reporting Standards as adopted by the Republic of Korea ("Korean IFRS").

Auditing standards and their application in practice vary among countries. The procedures and practices used in the Republic of Korea to audit such financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report is for use by those who are informed about Korean auditing standards and their application in practice.
