2 (1:00 p.m.)

3 JUDGE KOKOSKI: Please be seated.

4 Good afternoon. We will now hear argument in  
5 Case Number IPR2015-00650, Owens Corning versus Fast Felt  
6 Corporation, which concerns U.S. Patent Number 8,137,757.

7 I am Judge Kokoski. And Judges Kalan and  
8 Murphy are appearing remotely. At this time we would like  
9 counsel to state their appearances for the record. Please speak  
10 into the microphone at the podium and also let us know who  
11 you have with you, beginning with Petitioner, please.

12 MR. PEJIC: Ned Pejic, lead counsel for  
13 Petitioner. With me as back-up counsel, Jennifer Wick. And  
14 on behalf of Owens Corning, Jim Gibb and Steve Scharf.

15 JUDGE KOKOSKI: Thank you.

16 MR. PORTER: Greg Porter on behalf of Patent  
17 Owner, Fast Felt. And I have Jim Petruzzi and James Willson  
18 with me.

19 JUDGE KOKOSKI: Thank you.

20 Before we begin, I would like to remind the parties  
21 this hearing is open to the public and a full transcript of the  
22 hearing will be made part of the record.

23 Also, please keep in mind that whatever is  
24 projected on the screen will not be viewable by Judges Kalan  
25 and Murphy. When you refer to an exhibit on the screen,

1 please state the slide or page number to which you are  
2 referring for the record.

3 This is also important for clarity in the transcript.  
4 And also make sure that you are speaking into the  
5 microphone, so that the remote judges can hear you.

6 In order to keep this hearing focused on the merits  
7 of the case, we ask counsel not to interrupt each other to make  
8 objections. Any objections can be discussed during response  
9 and rebuttal time.

10 Petitioner bears the burden of proof that the claims  
11 at issue are unpatentable and may proceed first. You have a  
12 total of 30 minutes, and may reserve some of that time for  
13 rebuttal.

14 How much time would you like to reserve, if any?

15 MR. PEJIC: 15 minutes for rebuttal.

16 JUDGE KOKOSKI: Okay. You can see we have  
17 the countdown clock there, so I won't be giving you a warning  
18 when we get to 15 minutes.

19 MR. PEJIC: Thank you.

20 JUDGE KOKOSKI: You can proceed when you are  
21 ready.

22 MR. PEJIC: Good afternoon. Thank you for the  
23 opportunity to be heard.

1           There is no dispute in this case that depositing  
2 polymers on roofing and building cover materials is old and  
3 well-known. I would like to refer to slide 2.

4           Lassiter Exhibit 1003 teaches nozzles 26 for  
5 depositing polymer nail tabs on roofing or building cover  
6 material 17. I would like to refer to slide 3, please.

7           There is also no dispute that many different  
8 techniques can be interchangeably used to deposit polymers  
9 on roofing and building cover materials. In particular, the art  
10 of record teaches nozzles and rolls can be interchangeably  
11 used.

12           Allman Exhibit 1006 teaches rolls or nozzles as  
13 alternative techniques for depositing polymers on roofing or  
14 building cover materials. I would like to refer you to slide 4.

15           Indeed, Patent Owner's expert agreed that nozzles  
16 like ink jet and rolls, like in gravure, can be used to print on  
17 building cover materials, such as wallpaper. Let me refer you  
18 to slide 5.

19           There is also no dispute that using rolls to deposit  
20 polymers offers recognized advantages over nozzle-type  
21 deposition techniques. These recognized advantages include  
22 the ability to deposit polymers on a wide range of substrates,  
23 including surfaces otherwise difficult to deposit on and with  
24 high quality and speed.
