I, Michael A. Thomas, M.D., declare as follows:

I. QUALIFICATIONS

1. I received my B.S. in 1980 from Northwestern University and my M.D. from the University of Illinois College of Medicine in 1984. After medical school, I was a resident in obstetrics and gynecology at Wayne State University in Detroit. After a successful 4 years in residency, I received a competitive position as a Fellow in the Section of Reproductive Endocrinology and Infertility at Northwestern University under the mentorship of Dr. Robert W. Rebar. My fellowship program relocated to the University of Cincinnati College of Medicine when Dr. Rebar became the Chairman of the Department of Obstetrics and Gynecology.

2. Since 1990, I have been a practicing obstetrician, gynecologist, and reproductive endocrinologist at the University of Cincinnati College of Medicine and see patients regularly to this day.

3. In addition, I was appointed to numerous administration positions during my tenure at the University of Cincinnati College of Medicine. For example, in 1997, I was selected to be the Associate Director of Reproductive Medicine Research (Clinical Trial Unit). I also served as Co-Director, Center for Reproductive Health from 1998-1999; Director, Center for Reproductive Health from 1999-2002; and Associate Chairman for Clinical Affairs from 2004-2005. I

have also served in a number of other leading roles in the field of obstetrics and gynecology including acting as the Co-Medical Director, IVF (In-Vitro Fertilization) Program, Health Alliance of Greater Cincinnati from 2000-2002. I am currently the Division Director and Fellowship Director, Division of Reproductive Endocrinology and Infertility, Department of Obstetrics and Gynecology (a position I have held since 2001); Director, Reproductive Medicine Research (a position I have also held since 2001); and Vice Chair, Clinical Research, Division of Obstetrics and Gynecology (a position I recently was appointed to in 2014).

4. In addition to my medical practice, I also teach on the topics of contraception and reproductive endocrinology at the University of Cincinnati College of Medicine where I began as an Assistant Professor in 1990 and steadily rose in the ranks to become a fully tenured Professor in 2006.

5. In addition to teaching and mentoring medical students, residents and fellows at the University on reproductive endocrinology and contraception, I am also regularly invited to speak both nationally and internationally, on varied topics in and related to the these areas. These include the endocrinology of contraception, the history of contraceptive development, innovations in contraception and how to design, implement, and interpret the results of a contraceptive clinical trial.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
