- 8) Expanded service for other auction sites planned
- 9) Supported by eBay as preferred photo service (goal)

Competitive Analysis

pbay's key strength at launch is the ease in which you can add photos to your auctions. The user does not need to pay any attention to sizing, format, or even naming structure of their images. The extensibility of pбай will enable pбай to match and exceed the capabilities of all competitive sites. Reliability will be key point of differentiation. We need to investigate the systems that are in place for our competitors to see if we have a competitive advantage to tout.

Below is a high level chart outlining the competitive features offered by the leading picture services for eBay.

PictureWorks Technology's *pbay* Picture Hosting Service Enhances eBay Auctions with Photos / *pbay* Solves #1 Frustration of eBay Users, Adding Photos to Auctions

***pbay* is The Fastest and Easiest way to add Photos to eBay Auctions - 'Pictures Work' to increase Auction Sales**

PictureWorks Technology announced today *pbay*, the picture hosting service for eBay auctions.

As the number one auction site on the Internet, eBay is serving nearly two million actions. Auctions with photos result in more bids, higher sales price, and faster sales, reportedly up to 200% better than auctions without photos.

pbay's goal is 100% of auctions will have photos and *pbay* will provide hosting for 50% of all auctions by the end of the year.
