All you need is Graffiti.® The fastest, most accurate way to enter text on a Newton.™ Guaranteed. How fast? Try over 30 words a minute. How accurate? About 100%.
And Graffiti takes only twenty minutes to learn. That's because it's really just a simplified version of the same alphabet you learned in the first grade.

And here is what some of the over 20,000 real users are saying about Graffiti:

"Graffiti makes a useful device twice as useful. I now use my Newton constantly."

A_A B_B C_C D_D E_E F_F G_G H_H I_I J_J K_K L_L M_M
N_N O_O P_P Q_Q R_R S_S T_T U_U V_V W_W X_X Y_Y Z_Z

"I can take notes at a meeting as fast as I print… Every bit as fast as paper and pen."

"I have been using my Newton much more than before because Graffiti makes it much easier to enter data on the fly."

"Just received Graffiti. It's all they claim and more. I think it's a must for Newton."*

See for yourself how much you need Graffiti. Call 1-800-881-7256 to order Graffiti for only $79—with a 60-day money-back guarantee. From outside the USA, please call 408-848-5604.

Welcome to the premiere issue of the Newton Solutions Guide, a resource designed to provide you with the latest information on hardware, software, and accessories for the Newton platform.

Apple Computer's Newton team spent a great deal of time listening to customers like you in the last year. Your feedback has resulted in significant improvements and advanced capabilities in this new version of the Newton operating system. Newton 2.0 is loaded with features that you've requested, from best-of-class management capabilities to built-in wireless communications and better integration with your Windows and Mac OS computers. Also, we are working with third-party developers to insure that you will always have the most compelling solutions from which to choose on any PDA platform. The Newton Solutions Guide is designed to help you more effectively find the best mobile solutions to help you organize your life, communicate with others, and integrate information no matter where you travel—down the hall, across the state, or around the world.

Thank you for choosing the Newton platform. We look forward to bringing you a variety of exciting new features and solutions in the coming year.

David Nagel
Senior Vice President
Worldwide Research and Development
Apple Computer, Inc.

ment tools, this guide includes up-to-date information on the newest Newton 2.0 products and solutions that can help you work more efficiently and effectively.

The Newton Platform—Setting the Standard for PDAs

In mid-1993, Apple® Computer, Inc. launched the first Newton device, the Apple MessagePad,™ ushering in a new class of computing products— the personal digital assistant. More than just an electronic organizer, Newton PDAs are powerful hand-held devices that provide mobile professionals and corporate users with an intelligent operating system, seamless desktop connectivity, and a wide variety of easy-to-use software solutions. Since the introduction of the first Newton-based PDA, scores of products have been developed to expand the range of Newton mobile solutions. Motorola, for example, has combined its expertise in wireless communications with the Newton platform to deliver the Motorola Marco Wireless Communicator, a hand-held Newton PDA with a built-in wireless modem. Many other products based on the Newton 2.0 operating system will be introduced in the coming year.

Mobile professionals have been adopting Newton PDAs because of the ease in which they're able to organize, communicate, and integrate information with others while they're away from their desks. The Newton platform's intuitive interface and large selection of productivity solutions help mobile professionals get more work done in less time.
DOCKET ALARM

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.

fastcase®
Smarter legal research.
