

THE EASY CHAIR

BY

Jim Williams

Greg Welch

THE EASY CHAIR

James P. Williams - Gregory F. Welch

May 5, 1986

WHAT IS IT?

- J
- Microprocessor controlled wheelchair
 - Aid to handicapped (cerebral palsy victims)
 - Learning tool for children with inexperience in mobility
 - Effective means of introduction to powered mobility
 - Funded by The Wabash Center (for handicapped children) in West Lafayette, Indiana

SPECIFICATIONS

- G
- Must add safeguards to powered mobility
 - Must introduce a "force-free" method of input
 - Should be removable without defacing the wheelchair
 - Should be adaptable as child develops motor skills

DESCRIPTIONS

- Overall block diagram
 - G > Touch pad - *Drum probe, etc.*
 - J > Ultrasonics
 - G > Computer - *New (re-written) monitor*
 - J > Tone generator
 - G > Motor control - *SHA (4 bit) zero span*
 - J > Power supply

TEST RESULTS

- G
- Touch Pad & Ultrasonics
 - > Verified hardware operation (general)
 - > Used software test routines

G

 - Motor control
 - > Monitored with oscilloscope
 - = Initial design produced incorrect references
 - = Modified to better meet specifications, and allow for offset & range adjustments

J

 - Power supply
 - > Monitored battery voltage with storage scope
 - = Developed plots and determined that current design was sufficient
 - = Regulator moved outside of enclosure for reduced temperature

TIME ACTION PLAN

- G
- Major portion completed on time (or ahead of schedule)

COST

- J
- Development cost slightly exceeded projected cost (due to miscellaneous development expenses)

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
