

# All Products Containing Nypon Display/touch Module

US Patent No. 7,384,177

**Claims:**

1. A light emitting assembly comprising a tray having a back wall and continuous side walls that form a hollow cavity or recess completely surrounded by the side walls, at least one light source located, mounted or positioned in the cavity or recess, and at least one sheet, film or substrate overlying the assembly for controlling the light emitted from the assembly to fit a particular application, wherein the tray acts as at least one of a back, side edge, and end edge reflector and has one or more secondary flat, angled, faceted or curved reflective or refractive surfaces to redirect at least a portion of the light emitted by the light source in a predetermined manner within the cavity or recess.
6. The assembly of claim 1 wherein there are at least two light sources located, mounted or positioned in the cavity or recess.
7. The assembly of claim 6 wherein each light source is positioned in close proximity to a group of the refractive or reflective surfaces.
9. The assembly of claim 6 wherein a portion of the light emitted from the light sources mixes in the cavity or recess.
10. The assembly of claim 9 wherein the sheet, film or substrate provides additional light mixing.

**Claims:**

13. The assembly of claim 1 wherein there is at least one sheet, film or substrate that is a diffuser, colored film or filter, label, transparent or semi-transparent overlay, label or display, reflector, polarizer or reflective polarizer.
14. The assembly of claim 1 wherein the at least one sheet, film or substrate has deformities for controlling the light output ray angle distribution to fit a particular application.
15. A light emitting assembly comprising a tray having a back wall and continuous side walls that form a hollow cavity or recess completely surrounded by the side walls, at least two light sources located, mounted or positioned in the cavity or recess, and at least one sheet, film or substrate overlying the assembly for controlling the light emitted from the assembly to fit a particular application, wherein the tray acts as at least one of a back, side edge and end edge reflector and has at least one secondary flat, angled, faceted or curved reflective or refractive surface to facilitate better mixing of light rays within the cavity or recess to produce a desired light output color or uniformity.
19. The assembly of claim 15 wherein at least some of the light sources are LEDs.

1. A light emitting assembly comprising

**Comment:** The graphical representation below is provided as a simplified example of a generic light emitting assembly and LCD panel to demonstrate the relative arrangement of some elements discussed in this chart.

The specific BLU discussed in this chart contains the general elements shown on the right.

Figure 1: Structure breakdown

SONY000394

a tray having a back wall and continuous side walls that form a hollow cavity or recess completely surrounded by the side walls,

## Tray

**Comment:** The light emitting assembly includes a tray having a back wall and continuous side walls that form a hollow cavity or recess completely surrounded by the side walls as generally depicted in the figure on the top. The product specification shows that the assembly includes a tray as described.

# Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

## Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

## Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

## Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

## API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

## LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

## FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

## E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
