             That appears to be correct.
             Dkay. Now, I'd like to ask you some questions
    about that. This says "First draft, May 15th, 1997."
    What does that mean?
       A I would believe that's when I took my notes
    and created this particular word document that this was
    generated from. So this would be when I first started
    putting this into word to create this specific
    document.
        O Okay. Do you have those notes?
13
        A I don't recall if I have them or not.
         Q If you had them, they would have been produced
15
    in this case, correct?
16
        A Actually, that would clarify my answer of, I
    most certainly don't have them. The attorneys may have
17
    them in the files they might have collected. I don't
18
19
     know if they were there or not.
20
            Okay. And if they weren't produced, they
21
    don't any longer exist?

A That would be my belief. Yeah.

Q Okay. When did you create those other documents?

Again, I don't recall what the document -- I 11 know that I did work on things that talked about different elements and different types of access control. whether they specifically referred to the types that might be out of the patent, I can't really 14 15 answer, and I just don't recall.
