PRODUCT PICKS

Quick, quality color

Get true business-quality color output fast with the **OKIPAGE 8c** color printer. This desktop unit prints eight pages per minute in full color--faster than a laser printer--at a cost of 11-20 cents per page. It features four LED print heads and a straight paper path. \$3,495 or lease for about \$150 per month. *Okidata, Mount Laurel, N.J.; 800/OKIDATA; www.okidata.com*

Possess property particulars

Property Pro CD is a research and marketing tool that retrieves current real property information on a county-by-county basis for seven Western states. You can generate reports, sales comparables, and profiles, and produce mailing labels, street maps, and parcel maps. Subscribe to CD-ROMupdates or access information online to ensure that the data is always current. Prices vary, depending on the county and subscription type. For example, Los Angeles County data ranges from \$135 to \$175 per month.

Picture perfect

Now you don't have to be a computer graphics expert to post listings on the Internet. PictureWorks Technology's **Prepare & Post** software allows you to click and drag a photo from your desktop directly to a Web site. The software automatically converts the file to the site's preferred resolution, format, and size, then sends the image to the site's server. Price: \$5,000 -- \$25,000 one-time integration fee, depending on customer requirements, plus \$5 or less monthly per user. *PictureWorks Technology, San Diego; 800/303-5400; www.pictureworks.com*
