I. Introduction

A. Certification the '705 Patent May Be Contested by Petitioner

Petitioner certifies that U.S. Patent No. 8,868,705 (Ex. 1001) (the '705 patent) is available for inter partes review. Petitioner also certifies it is not barred or estopped from requesting inter partes review of the claims of the '705 patent. Neither Petitioner, nor any party in privity with Petitioner, has filed a civil action challenging the validity of any claim of the '705 patent. The '705 patent has not been the subject of a prior inter partes review by Petitioner or a privy of Petitioner.

Petitioner also certifies this petition for inter partes review is timely filed as it has never been asserted against Petitioner in litigation. Thus, because there is no patent owner's action, this petition complies with 35 U.S.C. § 315(b). Petitioner also notes that the timing provisions of 35 U.S.C. § 311(c) and 37 C.F.R. § 42.102(a) do not apply to the '705 patent, as it pre-dates the first-to-file system. See Pub. L. 112-274 § 1(n), 126 Stat. 2456 (Jan. 14, 2013).

B. Fee for Inter Partes Review (§ 42.15(a))

The Director is authorized to charge the fee specified by 37 CFR § 42.15(a) to Deposit Account No. 50-1597.

C. Mandatory Notices (37 CFR § 42.8(b))

1. Real Party in Interest (§ 42.8(b)(1))
