1	EL SEGUNDO, CALIFORNIA; FRIDAY, FEBRUARY 8, 2013	1	EXAMINATION
2	8:57 A.M.	2	BY MS. PESCHEL:
3		3	Q Ms. Ginoza, have you ever had your deposition
4	THE VIDEOGRAPHER: We are on the record at 8:57	4	taken before?
5	a.m. This is the videotaped deposition of Sandy Ginoza,	5	A No.
6	representing the Internet Engineering Task Force in the	6	MS. GRESKOWIAK: I'm sorry. Could you speak
7	matter of Certain Devices With Security Communication	7	up? It's hard to hear.
8	Capabilities, Components Thereof, and Products	8	MS. PESCHEL: Sure.
9	Containing the Same, in Investigation No. 337-TA-858.	9	Q Have you ever had your deposition taken before?
10	This deposition is being held at Hyatt Place, 750	10	A No.
11	North Nash Street, El Segundo, California, 90245, on	11	Q So in the beginning, I'm just going to go
12	February 8, 2013.	12	through a series of questions to kind of get us on the
13	My name is Phil Mazo, and I am the	13	same page about the deposition.
14	videographer. I am present on behalf of Stratos Legal.	14	A Okay.
15	The court reporter is Lindsay Pinkham, also present on	15	Q You understand that the court reporter's here
16	behalf of the Stratos Legal.	16	to take down what you say?
17	Counsel will now state their appearances and	17	A Yes.
18	firm affiliation for the record.	18	Q And that any answers that you give need to be
19	MS. PESCHEL: Leisa Talbert Peschel, Williams,	19	spoken out loud rather than a nod?
20	Morgan & Amerson, on behalf of Apple Inc.	20	A Okay.
21	MS. PETREDIS: Lara Petredis, Urrabazo Law,	21	Q So that she can take that down?
22	P.C., on behalf of SAIC.	22	A Yes.
23	MR. RIDINGS: Matt Ridings from Thompson Hine	23	Q I'm going to try my best not to talk over you,
24	on behalf of IETF.	24	and I would ask you to agree not to do the same.
25	And I'd also like to note before we get started	25	A Okay.
	Page 7		Page 9
1	for the record that about an hour ago I received a	1	Q I try to ask very clear questions, but
2	number of exhibits from counsel for VirnetX, including	2	sometimes I don't succeed. Will you agree to let me
3	some exhibits that IETF has not produced in respond to	3	know if you don't understand what I'm asking?
4	the subpoena.	4	A Yes.
5	I have not had a chance to review these	5	Q Will you also agree to let me know if the
6	exhibits, the deponent has not had a chance to review	6	answer you're giving is a guess or an estimate?
7	these exhibits, and frankly, as a matter of professional	7	A Yes.
8	courtesy, I really don't appreciate receiving these an	8	Q And can I assume that if you don't qualify your
9	hour before the deposition. I don't think it's	9	answer as a guess or an estimate, that it is not a guess
10	appropriate. And we'll deal with those when we get	10	or an estimate?
11	there. But I just want to note that for the record.	11	A Yes.
12	THE VIDEOGRAPHER: Counsel on the phone?	12	Q Will you agree to let me know if later in the
13	MS. GRESKOWIAK: This is Stacie Greskowiak on	13	deposition you need to change an answer you gave
14	behalf of complainant VirnetX, Inc.	14	previously, if you think of something additional?
15	THE VIDEOGRAPHER: Will the court reporter	15	A Sure.
16	please swear in the witness.	16	Q About every hour we'll probably take a short
17		17	break. If for any reason you need a break sooner than
18	INTERNET ENGINEERING TASK FORCE, THROUGH	18	that, will you just let me know?
19	ITS DESIGNATED REPRESENTATIVE, SANDY GINOZA	19	A Sure.
20	having been first duly sworn,	20	Q And are you feeling okay today?
21	was examined and testified as follows:	21	A Yes.
22		22	Q There's nothing physically that would prevent
23	THE VIDEOGRAPHER: We may proceed.	23	you from giving truthful and accurate testimony?
	///	24	A No.
24	///	25	11 110.

3 (Pages 6 to 9)

prevent you from giving truthful or accurate testimony? A No. Q Do you have any questions so far? A No. Q And you understand that you're here today testifying on behalf of the Internet Engineering Task Force? A Yes. Q And that your answers are given on behalf of the EIFF. A Yes. Q And that your answers are given on behalf of the EIFF. A Yes. Q And you understand when I refer to "IETI", that I merferring to the Internet Engineering Task Force? A A Van. Q If you need to give an answer on a personal basks; polar content of the San A Chay. Q If you need to give an answer on a personal basks; please qualify your answer as such. A Okay. Q If you need to give an answer on a personal personally, unless I specifically address it to you personally. Q Province of the Ner Content of the San A Chay. Q Now, I do want to talk a little bit with you about your personal background and history. What is your current relationship with the IETF? A A I am responsible — I'm the RFC Director, so Q And what was your position when you started with the IETF? A Similar to what I am doing now, but I probably started as a project assistant. 12 Q Now, I do want to talk a little bit with you saired as a project assistant. 13 In the IETF. But I was a project assistant. 14 Leftive, it was a "werit dition." 15 In the IETF But I was a point of the Internet Engineering Task Force? 16 Q And what was your answer as such. 17 A Okay. 20 If you need to give an answer on a personal background and history. What is your current relationship with the IETF? 21 A Tam responsible — I'm the RFC Director, so 22 A Okay. 23 Q Now, I do want to talk a little bit with you about your personally background and history. What is your current relationship with the IETF? 24 A A I am responsible — I'm the RFC Director, so 25 A The documents that come out as RFCs. 26 A Thirteen-ish years. 27 Q And what was your position when you started with the authors, get author aunouncement that the document is available. 28 Q More is the document so an early and the proposed for public		Page 10		Page 12

3				
4 A No. 5 Q And you understand that you're here today 5 testsffying on behalf of the Internet Engineering Task 6 Force? 8 A Yes. 9 Q And that your answers are given on behalf of the IETI? 11 A Yes. 12 Q And you understand when I refer to "IETIF," that 13 I'm referring to the Internet Engineering Task Force? 14 A Yes. 15 Q If you need to give an answer on a personal basis, please qualify your answer as such. 17 A Okay. 18 Q And you understand that if I ask a question, I'm really asking a question to the IETIP and not to you personally. 19 I'm really asking a question to the IETIP and not to you personally. 20 personally. 21 personally. 22 A Okay. 23 Q Now, I do want to talk a little bit with you about your personal background and history. What is your current relationship with the IETIP? 3 documents that come out as RFCs. 4 Q And how long have you been involved in the IETF? 5 documents that come out as RFCs. 4 Q And what was your position when you started with the IETIP? 5 A Similar to what I am doing now, but I probably started as a project assistant. 4 Q And how long have you been involved in the IETF? 5 A Similar to what I am doing now, but I probably started as a project assistant. 5 Q Okay. So what would have been your responsibilities at that time? 6 A Thirteen-ish years. 7 Q And what was your position when you started with the IETF? 8 A Similar to what I am doing now, but I probably started as a project assistant. 9 Q Okay. So what would have been your tresponsibilities at that time? 19 C Okay. So what would have been your the records? 10 C Okay. So what would have been your the records of the IETF? 10 C Okay. So what would have been your the IETF? 11 C Okay. So what would have been your the IETF? 12 C Okay. So what would have been your the IETF? 13 C Okay. So what would have been your the IETF? 14 C Okay. So what would have been your the IETF? 15 C Okay. So what would have been your the IETF? 16 C Okay. So what would have been your the IETF? 17 C Okay. So what would have been your the IETF? 18 C Okay. So				
testifying on behalf of the Internet Engineering Task Force? A Yes. Q And you understand when I refer to "IETF," that the IETF? Q And you understand when I refer to "IETF," that A Yes. Q And you understand when I refer to "IETF," that A Yes. Q And you understand when I refer to "IETF," that A Yes. Q And you understand when I refer to "IETF," that A Yes. Q And you understand that if I ask a question, I'm really asking a question to the IETF and not to you personally, Q Now, I do want to talk a little bit with you about your personal background and history. What is your current relationship with the IETF? A I am responsible — I'm the RPC Director, so the RPC Publication Director, and so we publish the IETF A A I am responsible — I'm the RPC Director, so C And how long have you been involved in the IETFP A Similar to what I am doing now, but I probably started as a project essistant. Q And what happened in January of 2010? A Yes, I did. Q You went with the functionality. So what are the current responsibilities that you have? personally, Q Now, I do want to talk a little bit with you about your personal background and history. What is your current relationship with the IETF? Page 11 A I am responsible — I'm the RPC Director, so the RPC Publication Director, and so we publish the IETF A Own how long have you been involved in the IETF? A Similar to what I am doing now, but I probably started as a project essistant. Q And what happened in January of 2010? A Yes, I did. Q What was your personal beaction, it would then wen the advantage of the IETP and not to you personally, Q Now, I do want to talk a little bit with you about your personal background and history. What is your current relationship with the IETF? A I am responsible — I'm the RPC Director, so the RPC Publication Director, and so we publish the IETF G Own has the the Green them into a queue, the RPC Publication Director, and so we publish the decument is available. Q And how has access to the IETF A New the decument is available. Q And what happened in		- · · · · · · · · · · · · · · · · · · ·		
6 testifying on behalf of the Internet Engineering Task 7 Force? 8 A Yes. 9 Q And that your answers are given on behalf of the IETF? 11 A Yes. 12 Q And you understand when I refer to "IETF," that 13 I'm referring to the Internet Engineering Task Force? 13 A Yes. 14 A Yes. 15 Q If you need to give an answer on a personal 15 bissis, please qualify your answer as such. 16 A Okay. 17 A Okay. 18 Q And you understand that if I ask a question, 19 I'm really asking a question to the IETF and not to you personally, unless I specifically address it to you 19 personally, unless I specifically address it to you 20 personally with the IETF? 21 A Okay. 22 A Okay. 23 Q Now, I do want to talk a little bit with you about your personal background and history. What is 20 your current relationship with the IETF? 24 A Timrteen-ish years. 25 Q And what was your position when you started with the IETF? 26 A Thirteen-ish years. 27 Q And what was your position when you started with the IETF? 28 A The documents that come out as RFCs. 39 Q And you understand when I refer to "IETF," that 12 the documents that come out as With Me IETF? 30 A The documents that come out as RFCs. 31 Q Okay. So what would have been your 20 personally in the IETF? 32 A The documents that of the IETF and not to you personal background and history. What is 20 your current relationship with the IETF? 31 A Tam responsible — I'm the RFC Director, so 20 the RFC Publication Director, and so we publish the IETF? 32 A Thirteen-ish years. 33 Q Okay. So what would have been your 25 the RFC Publication Director, and so we publish the IETF? 34 A The documents that come out as RFCs. 35 Q Okay. So what would have been your 25 the RFC publication Director, and so we publish the document is a waitabase, update 25 the indexes, place the document is sent, because that's when people know it's three. 36 Q Okay. And have you been publishing the documents as what they wanted to say, and then the documents as what they wanted to say, and then the documents as what they wanted to say,	5	O And you understand that you're here today	5	
7 Force? 8 A Yes, 9 Q And that your answers are given on behalf of the IETF? 9 Q And you understand when I refer to "IETF," that 12 A Yes. 12 Q And you understand when I refer to "IETF," that 24 A Yes. 15 Q If you need to give an answer on a personal 25 basis, please qualify your answer as such. 16 Basis, please qualify your answer as such. 17 A Okay. 18 Q And you understand that if I ask a question, 19 Fm really asking a question to the IETF and not to you personally, unless I specifically address it to you 24 about your personal background and history. What is your current relationship with the IETF? 19 A I am responsible – I'm the RFC Director, so the RFC Publication Director, and so we publish the IETF documents that come out as RFCs. 19 Q And what was your position when you started with the IETF? 20 A A dwhat was your position when you started with the IETF? 31 A I am responsible – I'm the RFC Director, so the RFC Publication Director, and so we publish the documents that come out as RFCs. 32 Thirteen-ish years. 33 Q Okay, So what would have been your responsibilities at that time? 34 A The contract to provide the RFC Editor services was transferred over to AMS, and 4 Yes, I did. 4 D A I's very similar to what I was doing previously. It's tracking the documents through the process once they ve been approved for maintaining any of the current relationship with the IETF? 4 A I am responsibile – I'm the RFC Director, so the RFC Publication Director, and so we publish the IETF documents that come out as RFCs. 4 Q And how long have you been involved in the IETF? 5 Comments that come out as RFCs. 5 Q And what was your position when you started with the IETF? 6 A Thirteen-ish years. 6 Q And what was your position when you started with the IETF? 7 Q And what the document shat were approved for publication, it would be to enter them into a queue, track them through the process, format them, edit the documents, with the washing the process format them, edit the documents asy what they wanted to say, and then a ti				
9 Q And that your answers are given on behalf of the IETT? 11 A Yes. 22 Q And you understand when I refer to "IETF," that 13 I'm referring to the Internet Engineering Task Force? 14 A Yes. 15 Q If you need to give an answer on a personal 16 basis, please qualify your answer as such. 17 Q If you need to give an answer on a personal 18 Q And you understand that if I ask a question, 19 I'm really asking a question to the IETF and not to you 19 personally, unless I specifically address it to you 20 personally, unless I specifically address it to you 21 personally, unless I specifically address it to you 22 a A Okay. 23 Q Now, I do want to talk a little bit with you 24 about your personal background and history. What is 25 your current relationship with the IETF? 26 the RFC Publication Director, and so we publish the IETF 27 documents that come out as RFCs. 28 Q And how long have you been involved in the 29 IETF? 29 A Thirteen-ish years. 20 Q And who was your position when you started 30 with the IETF? 31 A Tam responsible I'm the RFC Director, so the RFC Publication Director, and so we publish the IETF 32 documents that come out as RFCs. 33 Q Now, I do want to talk a little bit with you 34 about your personal background and history. What is 35 your current relationship with the IETF? 36 A The contract to provide the RFC Editor services was at Yes, Idid. 37 Q And you understand what if I ask a question, 38 Q Now, I do want to take a pirotent and to the IETF and to the your current relationship with the IETF? 4 A If s very similar to walt I was doing process once they've been approved for publication process once they've been approved for publication bring the initial information into our database, but one of our staff information into our database, but one of our staff information into our database, uptate the time into a que the province of the RFC Director, so the records? 4 A In contract to provise the METF. 4 A I and responsible I'm the RFC Director, so the RFC Publication Director, and so we publish the I	7		7	
the IETF? A Yes. Q And you understand when I refer to "IETF," that Yes. It was transferred over to AMS, and Q Did you go with — A Yes, I did. Q You went with the functionality. So what are the current responsibilities that you have? A Neay. A Okay. A Okay. A Okay. A Okay. Now, I do want to talk a little bit with you about your personally, unless I specifically address it to you personally, unless I specifically address it to you your current relationship with the IETF? A Okay. A I am responsible — I'm the RFC Director, so the RFC Publication Director, and so we publish the IETF adouncments that come out as RFCs. A Thirteen-ish years. Q And how long have you been involved in the IETF? A Thirteen-ish years. Q And what was your position when you started with the IETF? A The documents that come out as RFCs. A Thirteen-ish years. Q Okay. So what would have been your responsibilities at that time? A The documents that were approved for publication, it would be to enter them into a queue, track them through the process, format them, edit the documents, interact with the authors to make sure that the documents say what they wanted to say, and then publish the documents on the website. Q Okay. And have you been publishing the documents, interact with the authors to make sure that the documents say what they wanted to say, and then publish the documents on the website. Q Okay. And have you been publishing the documents, interact with the authors to make sure that the documents say what they wanted to say, and then publish the documents on the website. Q Okay. And have you been publishing the documents, the RFC documents for that whole time period, the 13 years? A Yes. Q Ond who has access to the repository? A Everyone. Anyone who has access to the ITTP considers it publication on the authors to make sure that the documents is sent, because that's when people know it's there. The Thirteen-ish years. Q Okay. And have you been publishing the documents, the RFC documents, the RFC documents of t	8	A Yes.	8	
11 A Yes. 2 Q And you understand when I refer to "IETF," that 13 I'm referring to the Internet Engineering Task Force? 14 A Yes. 15 Q If you need to give an answer on a personal 16 basis, please qualify your answer as such. 17 Q And you understand that if I ask a question, 18 Q And you understand that if I ask a question, 19 I'm really asking a question to the IETF and not to you 20 personally, unless I specifically address it to you 21 personally. 22 A Okay. 23 Q Now, I do want to talk a little bit with you 24 about your personal background and history. What is 25 your current relationship with the IETF? 26 A Thirteen-ish years. 27 Q And how long have you been involved in the 28 IETF? 38 A Thirteen-ish years. 49 Q And how long have you been involved in the 29 IETF? 39 A Similar to what I am doing now, but I probably 30 tasted as a project assistant. 40 Q And what was your position when you started 30 the IETF? 31 A The IETF? 32 A Thirteen-ish years. 40 And what was your position when you started 31 the documents shad come out as RFCs. 41 A Thirteen-ish years. 42 Q And what was your position when you started 43 the current replactionshilities that you have? 44 A Fex. I did. 45 Ves. I did. 46 Ves. I did. 47 Yes. I did. 48 Ves. I do Q You went with the functionality. So what are 48 the current responsibilities that you have? 4 A Ifx very similar to what I was doing 49 publication process once they've been approved for 40 Publication process once they've been approved for 40 Publication process once they've been approved for 41 Publication process once they've been approved for 42 Page 11 4 A I am responsible - I'm the RFC Director, so 4 A Yes. 4 A So once I don't personally input the initial information into our database, but one of our staff 5 Q what interact with the authors, get author 5 approval to publish the documents, and then when the authors sign off on it, I would then go input the initial information into our database, but one of our staff 5 Q When is the document online, and send out an announcemen	9	Q And that your answers are given on behalf of	9	A The contract to provide the RFC Editor services
12	10	the IETF?	10	was transferred over to AMS, and
13	11	A Yes.	11	Q Did you go with
14 A Yes. Q If you need to give an answer on a personal basis, please qualify your answer as such. A Okay. 15 A Okay. 16 Im really asking a question to the IETF and not to you personally, unless I specifically address it to you publication process once they ve been approved for publication. Q And does that involve maintaining any of the records? A Yes. Q What functions would you do you perform for maintaining the records?	12	Q And you understand when I refer to "IETF," that	12	A Yes, I did.
15	13		13	Q You went with the functionality. So what are
16 basis, please qualify your answer as such. 7 A Okay. 18 Q And you understand that if I ask a question, 19 Im really asking a question to the IETF and not to you 19 personally, unless I specifically address it to you 21 personally, 22 A Okay. 23 Q Now, I do want to talk a little bit with you 24 about your personal background and history. What is 25 your current relationship with the IETF? 26 A I am responsible I'm the RFC Director, so 27 the RFC Publication Director, and so we publish the IETF 28 documents that come out as RFCs. 4 Q And how long have you been involved in the 4 ETF? 4 A Thirteen-ish years. 5 Q And what was your position when you started 8 with the IETF? 4 A Thirteen-ish years. 5 Q And what was your position when you started 8 with the IETF? 5 A Thirteen-ish years. 6 A Thirteen-ish years. 7 Q And what was your position when you started 8 with the IETF? 8 A Similar to what I am doing now, but I probably 8 started as a project assistant. 9 Q Okay. So what would have been your 10 responsibilities at that time? 11 The documents that were approved for publication. 12 publication. 13 publication. 14 Publication. 15 Q And does that involve maintaining any of the records? 24 A Yes. 25 Q What functions would you do you perform for amintaining the records? 26 A Yes. 27 A Yes. 28 Q What tunctions would you do you perform for amintaining the records? 29 A Yes. 20 Q What functions would you do you perform for amintaining the records? 20 Q What Inuctions would you do you perform for amintaining the records? 21 A Yes. 22 A Yes. 23 A Yes. 24 A So once I don't personally input the initial information into our database, but one of our staff 25 get edited, interact with the authors, get author authors sign off on it, I would then go input the indexes, place the document online, and send out an announcement that edocument is sent. It's possible that it may be in a publication, it would be to enter them into a queue, when the authors sign off on it, I would then go input the interact with the au	14		14	
A Okay. Q And you understand that if I ask a question, 19 Threally asking a question to the IETF and not to you 20 personally, unless I specifically address it to you 21 personally. 22 A Okay. 23 Q Now, I do want to talk a little bit with you 24 about your personal background and history. What is 25 your current relationship with the IETF? 26 The RFC Publication Director, and so we publish the IETF 27 documents that come out as RFCs. 4 Q And how long have you been involved in the 28 IETF? 29 A Similar to what I am doing now, but I probably 30 A Similar to what I am doing now, but I probably 31 A The documents that were approved for 4 publication. 32 Page 11 33 A The documents that were approved in the 4 IETF? 4 A The documents that were approved for 5 ITTP (5 ITTP) 5 ITTP (6 A Thirteen-ish years. 7 Q And what was your position when you started with the IETF? 8 A The documents that time? 9 A Similar to what I am doing now, but I probably 10 started as a project assistant. 11 Q Okay. So what would have been your 12 responsibilities at that time? 13 A The documents that were approved for 14 publication, it would be to enter them into a queue, 15 track them through the process, format them, edit the 16 documents, interact with the authors to make sure that 17 the documents say what they wanted to say, and then 18 public ation. 19 Q And what was your been publishing the 10 Q Okay. And have you been publishing the 11 quality of the process once they vere cords? 12 A Yes. 12 Q And does that involve maintaining any of the 12 percords? 14 A Yes. 12 Q What functions would you do you perform for maintaining the records? 12 A Yes. 12 percords? 13 A So once I don't personally input the initial information into our database, but one of our staff 14 people does. And we track the documents, make sure they get edited, interact with the authors, get author 15 people does. And we track the documents and then when the authors sign off on it, I would then go input the correct - any corrected data into the database, update t	15		15	
Q And you understand that if I ask a question. The really asking a question to the IETF and not to you personally, unless I specifically address it to you personally in your current relationship with the litter in the IETF? A Consider I may be in the IETF? A I am responsible I'm the RFC Director, so the RFC Publication Director, and so we publish the IETF documents that come out as RFCs. A Thirteen-ish years. Q And how long have you been involved in the IETF? A Tiniteen-ish years. Q And what was your position when you started with the IETF? A Similar to what I am doing now, but I probably started as a project assistant. Q Okay. So what would have been your responsibilities at that time? A The documents that were approved for publication, it would be to enter them into a queue, track them through the process, format them, edit the documents say what they wanted to say, and then publish the documents on the website. Q Okay. And have you been publishing the documents what whey wanted to say, and then publish the documents on the website. Q Okay. And have you been publishing the documents, for that whole time prior, the RFC documents, for that whole time prior, and so we publish the process, format them, edit the documents say what they wanted to say, and then publish the documents on the website. Q Okay. And have you been publishing the documents, interact with the authors to make sure that the documents, interact with the authors sign off on it. I would then go input the correct – any corrected data into the database, update the indexes, place the document is available. Q Okay. So what would have been your formation into our database, but o

11 Q Okay. So what would have been your 12 responsibilities at that time? 13 A The documents that were approved for 14 publication, it would be to enter them into a queue, 15 track them through the process, format them, edit the 16 documents, interact with the authors to make sure that 17 the documents say what they wanted to say, and then 18 publish the documents on the website. 19 Q Okay. And have you been publishing the 20 documents, the RFC documents, for that whole time 21 period, the 13 years? 22 A Yes. 23 Q What was your first position with the IETF? 24 A Well, I really worked for ISI, which is part of 11 announcement is sent. It's possible that it may be in a 12 public repository a day or two before that, but it's 13 considered when the announcement is sent, because that's 14 when people know it's there. 15 Q And who has access to the repository? 16 A Everyone. Anyone who has access to the 17 Internet. 18 Q So a member of the public could go on the 19 Internet and search for a particular RFC and be able to 20 see that? 21 A Yes. 22 Q Do you know how far back the records go? 23 A Records for? 24 Q The RFCs.

DOCKET

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time** alerts and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
