To make the bracelet design shown on front, follow the easy steps below.
Video instruction available at <http://www.miniloom.com>

1 Put first rubber band on loom in figure 8 pattern. (This is the only figure 8 band.)

2 Now add 2 more bands above the first figure 8 band on the loom.

3 Hook bottom band; stretch to the side and over top of loom as in next picture.

4 Let go of that side of that band and repeat previous step on other side of same band.

5 This is what you should see once both sides of bottom band have been done.

6 Push the two remaining bands to the bottom of loom with your fingers.

7 Put 1 new band at top of loom and repeat 3-7 until desired length.

8 When long enough, stop adding bands, and repeat 3-5 until last band is off loom.

9 Add clip to ends of last band, pull bracelet out of loom and clip to other end. You're done!
