Summary

David Harting is a co-founder at eleven point five with extensive experience in engineering design and design thinking, as well as resource, program and operations management. Besides being known as an engineer who can sketch, he is renowned for balancing solutions that push the envelope with the unrelenting laws of physics. He holds 25 patents and takes great pride in getting things done on time and within budget.

Experience

Owner, Engineering

11 Point Five

August 1996 – Present (19 years 6 months) | Boston, MA

Eleven Point Five is a licensing based product development firm with hundreds of products contributing to its revenue stream across a broad range of markets. Partners include OXO, Aspen Pet, Sauder Manufacturing to name a few.

Owner, Engineering

Eleven, LLC

August 1996 – October 2015 (19 years 3 months) | Boston, MA

Director of Engineering, responsible for client and project management, proposal writing, sales presentation support
COO, oversee financial management of firm. Resource and cash flow management. Budget and expenditure approval.

Director of Engineering

Continuum

June 1994 – June 1996 (2 years 1 month) | West Newton, MA

As director of engineering I was responsible for leading and overseeing the engineering operation, writing reviews, budgeting capital equipment expenditures, continued support to sales and ultimately was elected by the share holders of Eleven to represent engineering on the executive committee.

CONTINUUM
