What's New

Radiocommunications Agen

The Radiocommunications Agency is an Executive Agency of the [Department of Trade and Industry](#). We are responsible for the management of the non-military radio spectrum in the UK, which involves [international](#) representation, commissioning [research](#), allocating spectrum and licensing its use, and [keeping the radio spectrum clean](#). We are one of the five regulatory bodies which will merge to form [Ofcom](#) in December 2003.

Latest Update

19th December 2003: Five new Mobile Phone Base Station Audit Result have been added and Citizen's Band topic page has also been updated, see "What's New".
