EXPERIENCE

07/1982 – present: Samuel Stratton Dept. of Veterans Affairs Medical Center
113 Holland Avenue Albany, New York 12208

- 4/2012-present: Director, PGY2 Pharmacy Pain Residency
- 6/1994-present: Clinical Pharmacy Specialist, Pain Management
- 7/2002-10/2003: Clinical Pharmacy Specialist, Primary Care & Pain Mgmt
- 3/1987-6/1994: Clinical Pharmacy Specialist, Research/Oncology/Hematology
- 7/1982-3/1987: Staff Pharmacist

Current Activities Focus: The Clinical Pharmacy Specialist (CPS) works in close collaboration with medical staff members in the management of various acute and chronic pain disease states. After a diagnosis/diagnoses has/have been made and is/are documented in the electronic medical record, a specific request may be made by a physician or mid-level for the CPS to monitor a disease state(s) or assess a medication regimen and adjust, initiate, or discontinue therapy for individual patients. The CPS may also order and interpret lab tests necessary to monitor and support drug therapy upon such a request.

Specific Patient Care Activities Include:

- Conduct comprehensive appraisals of patients' health status by taking health and drug histories. Relevant findings must be documented in the patient's medical record.
- Evaluate drug therapy through direct patient care involvement, with clinical assessment and objective findings relating to patient's responses to drug therapy and communicating and documenting those findings and recommendations to appropriate individuals and in appropriate records (i.e., patient's medical record).
- Develop and document therapeutic plans utilizing the most effective, least toxic, and most economical medication treatments.
- Provide patient and health care professional education.
- Order, perform, review, and analyze appropriate laboratory tests and other diagnostic studies necessary to monitor and support the patient's drug therapy.
- Prescribe medications, devices, and supplies to include, but not limited to: initiation, continuation, discontinuation, monitoring and altering therapy, based upon established protocols.
- Perform the physical measurements necessary to ensure the patients appropriate clinical responses to drug therapy.
- Assist in the management of medical emergencies, adverse drug reactions, and acute and chronic disease states.

- Identify and take specific corrective action for drug-induced problems. Order consults (i.e., Anesthesia interventionalists, imaging, dietician, social work, psychology), as appropriate, to maximize positive drug therapy outcomes.

Activities have previously and/or currently include:

- Development of PGY2 Pharmacy Pain Residency
- Develop and incorporate telemedicine options for remote VA patients
- Monthly inservices to primary care providers on various pain topics.
- Pharmacokinetic screening and serum analysis of opioid therapy
- Development and implementation of Stratton VA Pain Clinic
- Ambulatory Care Chronic Pain Clinic
- Participate in daily pain management inpatient rounds to monitor and review pain management regimens on those patients referred to our service for chronic or acute pain management and/or PCA
- Pain Management Multidisciplinary Team Member
- Pain Management Multidisciplinary Team Chair
- Director, Pharmaceutical Care Pain Clinic
- Write Drug Utilization Review (DUR) and guidelines
- Coordinate and ran weekly Pharmaceutical Care Neurosurgery Pain Management Clinic. Activities
- Include patient evaluation, counseling, physical assessment, prescription writing and patient follow-up.
- Design, conduct and participate in drug studies, audits and evaluations concerning the utilization review of analgesic and antineoplastic drugs under the auspices of Therapeutic Agents and Pharmacy Review Committee, Quality Assurance and Research and Development Committee.
- Instrumental in the development of a Multidisciplinary Pain Management Team. This included development of policies and procedures in conjunction with other health professionals, patient rounds, pain evaluation, and the management of pain with a multidisciplinary team. In addition, all referrals for Patient Controlled Analgesic (PCA) ambulatory infusion pumps had been coordinated, monitored, and followed up by the Oncology Pharmacist.
- Member of the VAMC VISN Eastern Regional Pain Task Force.
- Initiated, developed, and supervised the Oncology Satellite. This included establishing a multidisciplinary team and writing initial policies for safe handling of cytotoxic drugs within the VA Hospital. We were the first hospital in the northeastern New York State to establish such policies, and our policies were used as a model for pharmacies throughout New York State.
- Evaluate drug literature by analysis of experimental design and conclusions, in order to compare and contrast therapeutic regimens and uses for new drug therapies.
- Designed antineoplastic drug dosage regimens utilizing pharmacokinetic principles and specific patient parameters, when requested by the attending physician.
- Provided drug information to various health care providers on all investigational drugs being utilized in the Medical Center and ensured availability of current drug information in Pharmacy, Medical and Nursing Services. Responsibilities included meeting with various investigative sponsors, writing and editing protocols, educating pharmacy, nursing and medical staff, and procuring, preparing, and dispensing medication.

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
