[57] **ABSTRACT**

This invention includes a pharmaceutically acceptable formulation of Diclofenac, Tobramycin, a solubility agent and, optionally, excipients, tonicifiers, buffers, viscosity modifying agents, preservatives, and chelating agents, at a pH from greater than 7.0 to about 9. The invention also discloses the use of this pharmaceutically acceptable formulation of an antibiotic and NSAIDs to treat eye and ear conditions accompanied by infection and inflammation.
