PROLENSA" (bromfenac ophthalmic solution) 0.07%

CONFIDENTIAL PROL0280370

For the treatment of postoperative inflammation and reduction of ocular pain in patients who have undergone cataract surgery

PROLENSA™: Potency and penetration with QD efficacy^{1,2}

FORMULATED TO FACILITATE CORNEAL PENETRATION

- Advanced formulation delivers corneal penetration¹⁻³
- Proven efficacy at a lower concentration than BROMDAY® (bromfenac ophthalmic solution) 0.09%14

POWERED FOR ELFICACY

- Powerful clearance—More than twice as many patients achieved complete clearance of postoperative inflammation vs vehicle at Day 15 (45.5% vs 20.2%; P<0.0001)¹²
- Rapid resolution—Rapid reduction of inflammation following cataract surgery²
- Pain free at Day 1—Approximately 4 of 5 patients were pain free at Day 1^{1,2*}

DESIGNED FOR COMFORT AND CONVENIENCE

- Designed for ocular comfort and convenience with QD efficacy^{1,2}
- No shaking required; solution delivers consistent dose in each drop^{1,5}
