SAVINGS & SUPPORT (</nesina/diabetes-savings-program>)

Important Safety Information

NESINA may not be right for everyone. NESINA can cause serious side effects.

Do not take NESINA if you are allergic to any of its ingredients.

Stop taking NESINA and contact your doctor or go to the nearest hospital emergency room right away if you experience swelling of your face, lips, throat, or other areas on your skin, difficulty swallowing or breathing, raised red areas on your skin (hives), skin rash, itching, flaking, or peeling, as these may be symptoms of a serious allergic reaction.

Inflammation of the pancreas (pancreatitis) can happen to people taking NESINA. NESINA may cause pancreatitis which may be severe. Tell your doctor if you have ever had pancreatitis, kidney problems, or liver problems. Stop taking NESINA and call your doctor right away if you have pain in your stomach area (abdomen) that is severe and will not go away. The pain may be felt going from your abdomen through to your back. The pain may happen with or without vomiting. These may be symptoms of pancreatitis.

Before taking NESINA, tell your doctor if you have ever had heart failure or have problems with your kidneys. Contact your doctor right away if you have any of the following symptoms: increasing shortness of breath or trouble breathing especially when lying down, an unusually fast increase in weight, or swelling of feet, ankles, or legs. These may be symptoms of heart failure.

Important Safety Information

NESINA (alogliptin) may not be right for everyone. NESINA can cause

NESINA may cause liver problems. Call your doctor right away if you stop taking NESINA and contact your doctor if you have any of the following symptoms: nausea, vomiting, stomach pain, loss of appetite, dark urine, or yellowing of your skin, eyes, or whites of the eyes.

If you take NESINA with another medicine that can cause low blood sugar, such as a sulfonylurea or insulin, your risk of getting low blood sugar is higher. The dose of your sulfonylurea medicine or insulin may need to be lowered while you take NESINA. If you have symptoms of low blood sugar, you should check your blood sugar and treat if low, and then call your doctor. Signs and symptoms of low blood sugar include shaking or feeling jittery, sweating, fast heartbeat, change in vision, hunger, headache, change in mood, confusion, or dizziness.

SAVINGS & SUPPORT ([/nesina/diabetes-savings-program](http://nesina.com/diabetes-savings-program))

Some people who take medicines called DPP-4 inhibitors like NESINA may develop joint pain that can be severe. Call your doctor if you have severe joint pain.

Before taking NESINA, you should tell your doctor if you are pregnant, planning to become pregnant, breastfeeding, or planning to breastfeed. It is not known if NESINA can harm an unborn baby, or if it passes into breast milk.

The most common side effects of NESINA were stuffy or runny nose and sore throat (4.8%), cold-like symptoms (upper respiratory tract infection; 4.5%), and headache (4.3%).

Tell your doctor about all the medicines, vitamins, and supplements you take.

Talk to your doctor or healthcare professional. Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
