REVISED PROTECTIVE ORDER

¹ The word-for-word identical Revised Protective Order applies to each of the proceedings identified in the heading.

This revised protective order governs the treatment and filing of confidential information, including documents and testimony.

1. Confidential information shall be clearly marked “PROTECTIVE ORDER MATERIAL.”

2. Access to confidential information is limited to the following individuals who have executed, filed, and served the acknowledgment appended to this order:

(A) *Party Representatives*. Representatives of record for a party in the proceeding.

(B) *Experts*. Retained experts of a party in the proceeding who further certify in the Acknowledgement that they are not a competitor to any party, or a consultant for, or employed by, such a competitor with respect to the subject matter of the proceeding. Any expert retained by Patent Owner shall be extended access to confidential information only upon agreement of the parties or by order of the Board.

(C) *The Office*. Employees and representatives of the Office who have a need for access to the confidential information shall have such access without the requirement to sign an Acknowledgement. Such employees and representatives shall include the Director, members of

the Board and their clerical staff, other support personnel, court reporters, and other persons acting on behalf of the Office.

(D) *Support Personnel.* Administrative assistants, clerical staff, court reporters and other support personnel of the foregoing persons who are reasonably necessary to assist those persons in the proceeding shall not be required to sign an Acknowledgement, but shall be informed of the terms and requirements of the Protective Order by the person they are supporting who receives confidential information.

3. Persons receiving confidential information shall use reasonable efforts to maintain the confidentiality of the information, including:

(A) Maintaining such information in a secure location to which persons not authorized to receive the information shall not have access;

(B) Otherwise using reasonable efforts to maintain the confidentiality of the information, which efforts shall be no less rigorous than those the recipient uses to maintain the confidentiality of information not received from the disclosing party;

(C) Ensuring that support personnel of the recipient who have access to the confidential information understand and abide by the

obligation to maintain the confidentiality of information received that is designated as confidential; and

(D) Limiting the copying of confidential information to a reasonable number of copies needed for conduct of the proceeding and maintaining a record of the locations of such copies.

4. Persons receiving confidential information shall use the following procedures to maintain the confidentiality of the information:

(A) *Documents and Information Filed With the Board.*

(i) A party may file documents or information with the Board under seal, together with a non-confidential description of the nature of the confidential information that is under seal and the reasons why the information is confidential and should not be made available to the public. The submission shall be treated as confidential and remain under seal, unless, upon motion of a party and after a hearing on the issue, or *sua sponte*, the Board determines that the documents or information do not qualify for confidential treatment.

(ii) Where confidentiality is alleged as to some but not all of the information submitted to the Board, the submitting party shall file confidential and non-confidential versions of its

submission, together with a Motion to Seal the confidential version setting forth the reasons why the information redacted from the non-confidential version is confidential and should not be made available to the public. The nonconfidential version of the submission shall clearly indicate the locations of information that has been redacted. The confidential version of the submission shall be filed under seal. The redacted information shall remain under seal unless, upon motion of a party and after a hearing on the issue, or *sua sponte*, the Board determines that some or all of the redacted information does not qualify for confidential treatment.

(iii) Patent Owner shall not file with the Board the non-confidential version of any submission referencing information designated by Petitioner as confidential without first providing a copy of the non-confidential version to Petitioner and obtaining Petitioner's approval of the redaction performed. Upon obtaining Petitioner's approval, Patent Owner shall initially file the non-confidential version with the designation "Parties and Board Only," which designation may be changed
