Employment Experience

American Enterprise Institute, 2013 – Present, Visiting Fellow.

Develop policy for Internet, spectrum, and communications networks to serve the public interest, enhance social welfare, and promote innovation. Write research reports, blog posts, op-eds, and make public appearances at conferences and other gatherings as keynote speaker or panelist. Advise policy makers in FCC, Congress, and industry on mobile and broadband network technology and regulation.

Network Technology and Policy Consultant, 1989 -Present

Design, extend, and teach network systems and technologies such as the Internet, Ethernet, Wi-Fi, LTE, DSL and DOCSIS. Develop policy frameworks to enhance innovation potential of network systems and advise policy makers. Testify before legislative and regulatory bodies.

Infocomm Development Authority of Singapore, 2011 – Present, Advisor.

Member of Economist and Regulatory Advisory Board consulting on Internet and broadband issues.

High Tech Forum, June 2010-Present, Founder and Editor

Edit and contribute to weblog on networking policy and technology aimed at educating policy makers and the media on technology issues relevant to contemporary policy debates.

Expert Witness, 2000 – Present.

Provide expert analysis, testimony, and reports to law firms engaged in intellectual property rights disputes concerning network-related technology inventions.

Information Technology and Innovation Foundation, Washington, DC. June 2009-September 2013, Senior Research Fellow (as independent consultant.)

Advised policy makers in FCC, Congress, and industry on broadband network technology and regulation, the National Broadband Plan, and pro-innovation technology policy. Delivered speeches and engaged in panel discussions on network technology and regulation at industry gatherings and policy conferences. Wrote studies, white papers, and reports relevant to technology policy.

Actiontec Electronics, Sunnyvale, CA, 2007-2009, Principal Engineer.

Responsible for system architecture, planning, and implementation of added-value networking components of a broadband home router product line sold to Verizon and Qwest. Also developed RFP responses and helped close deals.

Trapeze Networks, Pleasanton, CA, 2005-2007, Principal Engineer.

Developed architecture and code for an advanced enterprise Wi-Fi system in a fast-paced

venture-backed startup. Also developed intellectual property around packet scheduling for QoS and collaborated with OEM customer Nortel's research team.

Sharp Labs of America, Camas, WA, 2003-2005 (as independent consultant.)

Devised the principal acceleration scheme for IEEE 802.11n, "Aggregated MPDU." Designed Distributed Reservation Protocol system for Wi-Media Alliance Ultra-Wideband network. Represented company on standards committees.

Airgo Networks, Palo Alto, 2001-2002. Technical Leader.

Advised on chipset architecture, Access Point design and wireless network simulation for 802.11abgn chipset.

Cisco Systems, San Jose, 2000-2001 (as independent consultant.)

Under very tight deadlines, successfully delivered diagnostics for the two highest-priority projects for the flagship 7500 router, a gigabit Ethernet adapter and a SONET adapter.

3Com Corporation, Santa Clara, 1995-2000, 2001. (as independent consultant.)

Wrote drivers and diagnostics for 3Com Ethernet adapters from 10BaseT to 1000BaseX (Gigabit Ethernet) and helped design new hardware.

EIT, Palo Alto, CA, 1994-1995 Sr. Member Technical Staff

Developed real-time video collaboration tools under a grant from DARPA. Designed a protocol for real-time route selection and billing at Internet Exchange Points, developed a version of IP multicast for the MBONE, and wrote Java programs integrating collaboration tools.

Photonics Corporation, San Jose, 1991-94. (as independent consultant.)

In conjunction with business partner IBM, designed a preliminary version of the IEEE 802.11 MAC protocol for an infrared WLAN. Collaborated on initial design of the Wi-Fi architecture and protocols.

Fremont Communications, Fremont, 1990-1991. Vice-President of Engineering.

Managed a group of engineers responsible for all technical elements of an award-winning, low-cost PC-based fax modem, in a start-up environment.

Memorex-Telex, Milpitas, 1986-90. Director, Technical Marketing.

Co-founded the Open Token Foundation, a trade group of LAN vendors that created the testing lab now used by the Wi-Fi Alliance. Managed a group of system engineers who designed, provisioned, and installed networks for company's customers.

Excelan Inc., San Jose, 1985-1986. Lead Software Engineer.

Represented company at OSI Implementers' Workshop and contributed to design of multi-protocol framework for future development of TCP/IP and OSI protocols. Provided input on RFC 1001 and 1002 (NETBIOS over TCP/IP.)

Tandem Computers, Austin, TX, 1983-1985. Lead Software Engineer.

Served as Vice-Chair and Editor of 802.3 1Base5 Task Group, developing design of the first Ethernet over Unshielded Twisted Pair (UTP) standard. Developed products and represented company on LAN standards committees.

Texas Instruments, Austin, TX, 1977-1983. Software Engineer/Project Lead

Designed the device I/O subsystem for a proprietary network OS. Designed and implemented the first application for company's Token Ring chipset under contract with IBM. Developed the first IBM-compatible PC and several antecedents

Education

Post-graduate work, University of Texas, Computer Science, Logic, and EE, 1977-78.
BA, University of Texas, 1975, Philosophy.

Selected Industry Groups

- Member, Technical Working Group, Broadband Internet Technical Advisory Group (2010-present.)
- Contributor, IETF PCN, Homegate, LEDBAT and ALTO task groups (2008-2011.)
- Contributor, IEEE 802.11 & 802.11n Wi-Fi Standards, 1990-2 (Photonics), 2004-5 (Sharp Labs).
- Team Lead, WiMedia Alliance (2003-4). Contributed wireless multimedia architecture for consumer electronics over IETF, IEEE 802.15.3a, and Ultra-Wide Band (UWB).
- Contributor, IEEE 802.15.3a and MBOA MAC Protocol task group (2003-4.) Contributed critiques and enhancements to the standards body developing MAC and PHY protocols for Ultra-Wide Band communication and improvements to the vendor group.
- Secretary and Founder, Open Token Foundation (1989). Organized group of Token Ring vendors into trade group.
- Participant, OSI Workshop (1985-86). Wrote interoperability subset specification for protocol suites with multiple options, and demonstrated feasibility of open protocols
- Vice-Chair and Editor, IEEE 802.3 1Base5 task force (1984-86). Wrote first Twisted-Pair Ethernet Standard, the proof-of-concept for 10BaseT.

Selected Publications

Designed for Change: End-to-End Arguments, Internet Innovation, and the Net Neutrality Debate, ITIF, 2009; <http://www.itif.org/files/2009-designed-for-change.pdf>.

Google's Political Head-fake, San Francisco Chronicle, July 9, 2008 (reprinted in Washington Times July 12). Op-Ed on Google's expansion.

WiMedia MAC Convergence Architecture, WiMedia Alliance 2004, listed co-author.

Ethernet History: Nikkei Network, February 2003 (interviewed on development of twisted-pair standard)

New Challenges in Corporate Connectivity: Dataquest, 1990 (with Glenn Schiller.)

Token Ring's First Decade: The Open Token, September-November 1989.

Supplements to IEEE CSMA/CD 802.3 Standard: IEEE, 1989, listed co-author.

Citations

Quoted dozens of times in FCC filings in the broadband management and Open Internet dockets.

Issued Patents

System and method for automatic setup of a network device with secure network transmission of setup parameters, 10/27/2009. Method of easy WLAN setup. United States Patent 7,609,837.

System Clock Synchronization in an Ad Hoc and Infrastructure Wireless Networks, 2/1/2004 (with Kowalski and Kandala). Method of community clock synchronization. United States Patent

7,239,626.

Systems and methods for implementing an acknowledgment mechanism for transmission of a real-time data stream, 12/5/2003 (with Hlasny). Method of reducing packet jitter on TCP. United States Patent 7,394,813.

System and method for aggregation and queuing in a wireless network, 1/18/2011 (with Gast). Method of preserving QoS within Wi-Fi IEEE 802.11n-af A-MPDU. United States Patent 7,873,061

Other Patent Activity

Communication medium access control protocol for wireless communication, 11/15/1993 (Credited to Chen et. al.) US PTO 5,502,724. Allocates network time for Wi-Fi. (note: Photonics employees Tom Kurata and Stan Fickes developed this patent with my collaboration.)

State Description and Retry Strategy for Aggregated 802.11n Frames, 8/11/2004 (with Kowalski and Kandala). Prepared for USPTO filing. This is the method used for A-MPDU in 802.11n.

Patent Litigation

- Have written expert reports, expert rebuttals patent infringement and validity analysis for more than 15 litigants in more than 10 cases involving dozens of patents in the areas of Internet protocols, Ethernet, Wi-Fi, network analyzers, and network applications.
- List of clients available on request.

Selected Conferences and Public Appearances

Tech policy 2015: The year ahead, American Enterprise Institute, Washington, DC, January 30, 2015, panelist and moderator.

Wireless Technology Association summit “Can Mobile Broadband Realize Its Full Potential?”, Washington DC, October 2014, Presenter.

Wells Fargo 2014 Small Cell Symposium, New York, July 2014, Presenter.

US Telecom Leadership Committee Retreat, Vail Colorado, June 2014. Keynote speaker.

Third Way Symposium on Video on the Internet, Washington, DC, June 2014. Presentation.

Spectrum Beyond Incentive Auctions, Washington, DC, April 2014.

<http://iep.gmu.edu/conference-spectrum-beyond-incentive-auctions/>. Presentation.

Tech policy 2014: The Year Ahead, Washington, DC, January 2014.

XXI International Conference on Intellectual Property, Yalta, Ukraine, September 2013

(<http://iiiconference.org.ua>), keynote speaker.

U. S. Department of State, U. S. Speakers Program. Kyiv, Ukraine, September, 2013. Speeches and lectures on intellectual property rights.

The Research Conference on Communication, Information and Internet Policy (TPRC,) Arlington, 2009 - 2013, presented multiple papers and took part in numerous panel discussions.

U. S. House of Representatives Subcommittee on Technology and Innovation, hearing on “Avoiding the Spectrum Crunch,” April 18, 2012, witness.

M3AAWG, San Francisco, CA, February 2012, Internet piracy speaker.

Caribbean Telecommunications Union Ministerial Summit, Barbados, December 2011, keynote.

Congressional Internet Caucus Advisory Committee “State of the Mobile Net” and “State of the

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
