

Xyrem Prescription and Distribution Process

Video Script 2/2/01)

Audio	Video	Titles
1. [Fade in music]	Graphic texture of oranges and yellows	
[Up music.]	logo of Xyrem emerges	Fade in first title/logo graphic.
		Xyrem® (Sodium Oxybate) Oral Solution
		Fade out first title/logo graphic. Fade in video title.
		Prescription and Distribution Process
2. Narcolepsy, it is a serious debilitating condition that diminishes the quality of life for approximately 125,000 Americans.	Fade to head-to chest shot of narrator.	
3. Xyrem is a promising new medication that, for some patients with narcolepsy, can significantly reduce the incidence of cataplexy, as well as improve symptoms of daytime sleepiness.	Fade to table-top shot of Xyrem box and a display of its contents.	
4. But, because Xyrem is a controlled substance, Orphan Medical wants to make certain that “only” patients for whom it is prescribed have ongoing access to this important treatment.	Fade back to shot of narrator sitting on desk.

|---|---|--|
| 5. Orphan Medical is committed to a distribution plan that is both safe and effective for patients and also protects the general public by minimizing opportunities for the diversion of Xyrem to unauthorized individuals. | Fade to shot of Orphan representative making a presentation about success plans—perhaps pointing to a bullet point on an overhead screen. | |
| 6. To achieve that goal, Orphan Medical--after extensive consultation with law enforcement, prosecutors, field law enforcement personnel, pharmaceutical distribution experts, forensic experts, DEA consultants, and drug diversion experts-- has developed a comprehensive, restrictive distribution program. | Fade to build graphic that begins with shot of Xyrem box in center of screen. | <p>Fade in titles as mentioned.</p> <ul style="list-style-type: none"> • law enforcement • prosecutors • field law enforcement personnel • pharmaceutical distribution experts • forensic experts • DEA consultants • drug diversion experts |
| 7. In addition to thorough patient and physician education about Xyrem, | Fade to shot of narrator holding up a variety of patient/physician education material and, then, setting it down on the desk. | |
| 8. As well as multiple security checks before, during and after prescription fulfillment. | <p>Cut to split-screen shot showing</p> <ol style="list-style-type: none"> a) pharmacist assistant verifying doctor's license b) pharmacist unlocking cabinet, c) patient signing for delivery by Federal Express. | |

9. The purpose of this video is to outline, step-by-step, all of the security measures that will occur whenever a prescription of Xyrem is written and filled.
- Cut back to narrator.
- 10.
- When Xyrem first becomes available, a select group of physicians with a documented history of prescribing medications for patients with narcolepsy will receive an educational module, in the mail, called the Physician Success Program.
- Begin action
- Fade to freeze-frame shot of a physician consulting with a patient.
- Fade in title with freeze frame.
- Notify A Select Group of Physicians about Xyrem®**
- Fade out title
11. This program will introduce these selected physicians to Xyrem and includes a videotape, Physician Success Program contact information, a patient education presentation, templates for medical records and patient contracts, and information about third-party payor reimbursement.
- Fade to table-top display of Physician Success Program materials.
- This mailing will be documented and no medication samples will ever be provided.
- Fade in titles when mentioned in narration.
- **Documented mailing**
 - **No physician samples**

12. Complementing this effort, a representative from Orphan Medical will visit each targeted physician and reinforce the information provided in the Physician Success Program.

Fade to shot of rep and physician meeting and discussing Physician Success Program materials.

The representative will ask the physician to sign a receipt if any additional Physician Success Program materials are left for the physician's office.

13.

Fade in title

A crucial component of the secure distribution of Xyrem is the use of a specialty pharmacy. The specialty pharmacy is a single, centrally-located facility that will have a variety of distribution, documentation, and security responsibilities.

**Specialty
Pharmacy**

Fade out title.

Fade in narrator

14. A staff of dedicated pharmacists, reimbursement specialists, and customer service representatives will provide a closed-loop distribution system that will not only serve patients and prescribers, but will also be able to generate data, recording prescribers, patients and dosing that could provide information for any possible investigations and prosecutions for state and federal authorities.

Fade to shot of pharmacist

- | | | |
|--|--|---------------------------------|
| 15. This distribution system begins with a secure holding warehouse area where an inventory of Xyrem is kept, according to scheduling requirements by federal and state laws and checked several times a day. | Fade to shot of pharmacy employee unlocking holding warehouse to reveal Xyrem supply. | Fade in benefit title. |
| 16. On a regular basis, a small supply of Xyrem is moved from the gated and locked warehouse to a gated and locked area within the same pharmacy. Only qualified pharmacists and pharmacy technicians, dedicated to the Xyrem Program will be allowed access or will handle Xyrem. | Cut to shot of pharmacy employees transferring inventory. | Secure inventory storage |
| 17. Both Orphan and the pharmacy acknowledge and document every time any inventory is moved. | Slow fades shot of
a) pharmacy personnel signing some transaction
documentation b) Orphan personnel at computer screen documenting the same. | |
| 18. Now, let's take a step-by-step look at how the specialty pharmacy provides verification and documentation of both the prescription and the prescribing physician before preceding to fill any requests for Xyrem. | Fade to shot of narrator. | |
| 19. When a physician determines that Xyrem is an appropriate medication for a patient, | Fade to shot of physician in the office using Orphan Medical's materials to educate a patient about Xyrem. | |
| 20. The prescription is faxed or mailed, depending on each states pharmacy board regulations, directly to the specialty pharmacy. | Fade to shot of physician faxing prescription. | |

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
