

U.S. Department of Energy
**Energy Efficiency
and Renewable Energy**
Bringing you a prosperous future where energy
is clean, abundant, reliable, and affordable

Biomass

Top Value Added Chemicals from Biomass Volume I—Results of Screening for Potential Candidates from Sugars and Synthesis Gas

Produced by the Staff at
Pacific Northwest National Laboratory (PNNL)
National Renewable Energy Laboratory (NREL)
Office of Biomass Program (EERE)
For the Office of the Biomass Program
T. Wery and G. Petersen, Editors

Exhibit 2005
E.I. du Pont de Nemours & Co. and
Acher-Daniels-Midland Co. v. Furanix Technologies BV

Top Value Added Chemicals From Biomass

Volume I: Results of Screening for Potential Candidates from Sugars and Synthesis Gas

Produced by Staff at
the Pacific Northwest National Laboratory (PNNL) and
the National Renewable Energy Laboratory (NREL)

T. Werpy and G. Petersen, Principal Investigators

Contributing authors: A. Aden and J. Bozell (NREL);
J. Holladay and J. White (PNNL); and Amy Manheim (DOE-HQ)

Other Contributions (research, models, databases, editing): D. Elliot, L. Lasure, S. Jones and
M. Gerber (PNNL); K. Ibsen, L. Lumberg and S. Kelley (NREL)

August 2004

Acknowledgement: The authors gratefully acknowledge the support and assistance from NREL staff members S. Bower, E. Jarvis, M. Ruth, and A. Singh and review by Paul Stone and Mehmet Gencer, independent consultants from the chemical industry as well as specific input and reviews on portions of the report by T. Eggeman of Neoterics International and Brian Davison of Oak Ridge National Laboratory.

Available for a processing fee to U.S. Department of Energy and its contractors, in paper, from:

U.S. Department of Energy
Office of Scientific and Technical Information
P.O. Box 62
Oak Ridge, TN 37831-0062
phone: 865.576.8401
fax: 865.576.5728
email: <mailto:reports@adonis.osti.gov>

Available for sale to the public, in paper, from:

U.S. Department of Commerce
National Technical Information Service
5285 Port Royal Road
Springfield, VA 22161
phone: 800.553.6847
fax: 703.605.6900
email: orders@ntis.fedworld.gov
online ordering: <http://www.ntis.gov/ordering.htm>

Printed on paper containing at least 50% wastepaper, including 20% postconsumer waste

Table of Contents

Executive Summary	1
1 Background	3
2 Objective.....	4
3 Overall Approach.....	5
4 Initial Screening to the Top 30.....	6
5 Selected Sugar-derived Chemicals	13
6 Syngas Results – Top Products	17
7 Pathways and Challenges	18
8 Moving Forward.....	20
9 Top 12 Candidate Summary Bios.....	21
9.1 Four Carbon 1,4-Diacids (Succinic, Fumaric, and Malic)	22
9.2 2,5-Furan dicarboxylic acid (FDCA).....	26
9.3 3-Hydroxy propionic acid (3-HPA).....	29
9.4 Aspartic acid	31
9.5 Glucaric acid.....	36
9.6 Glutamic acid	39
9.7 Itaconic acid.....	42
9.8 Levulinic acid	45
9.9 3-Hydroxybutyrolactone.....	49
9.10 Glycerol.....	52
9.11 Sorbitol (Alcohol Sugar of Glucose)	58
9.12 Xylitol/arabinitol (Sugar alcohols from xylose and arabinose)	61
10 Catalog of Potential Chemicals and Materials from Biomass	65

Bibliography	66
References Used to Develop Catalog for Potential Biobased Products	66
References for Assigning Chemical and Biochemical Pathways	66

Explore Litigation Insights

Docket Alarm provides insights to develop a more informed litigation strategy and the peace of mind of knowing you're on top of things.

Real-Time Litigation Alerts

Keep your litigation team up-to-date with **real-time alerts** and advanced team management tools built for the enterprise, all while greatly reducing PACER spend.

Our comprehensive service means we can handle Federal, State, and Administrative courts across the country.

Advanced Docket Research

With over 230 million records, Docket Alarm's cloud-native docket research platform finds what other services can't. Coverage includes Federal, State, plus PTAB, TTAB, ITC and NLRB decisions, all in one place.

Identify arguments that have been successful in the past with full text, pinpoint searching. Link to case law cited within any court document via Fastcase.

Analytics At Your Fingertips

Learn what happened the last time a particular judge, opposing counsel or company faced cases similar to yours.

Advanced out-of-the-box PTAB and TTAB analytics are always at your fingertips.

API

Docket Alarm offers a powerful API (application programming interface) to developers that want to integrate case filings into their apps.

LAW FIRMS

Build custom dashboards for your attorneys and clients with live data direct from the court.

Automate many repetitive legal tasks like conflict checks, document management, and marketing.

FINANCIAL INSTITUTIONS

Litigation and bankruptcy checks for companies and debtors.

E-DISCOVERY AND LEGAL VENDORS

Sync your system to PACER to automate legal marketing.
