

UNITED STATES PATENT AND TRADEMARK OFFICE

BEFORE THE PATENT TRIAL AND APPEAL BOARD

GENERAL PLASTIC INDUSTRIAL CO., LTD.,
Petitioner,

v.

CANON KABUSHIKI KAISHA
Patent Owner.

Case IPR2015-01954 (Patent 8,909,094 B2)¹
Case IPR2015-01966 (Patent 9,046,820 B1)

Before MICHAEL R. ZECHER, JENNIFER S. BISK, and
SHEILA F. McSHANE, Administrative Patent Judges.

McSHANE, *Administrative Patent Judge.*

ORDER
Conduct of the Proceedings
37 C.F.R. § 42.7(a)

¹ This Order addresses similar issues in all the referenced cases; therefore, we issue a single Order to be filed in each case. The parties are not authorized to use this style of caption in any other filings.

IPR2015-01954 (Patent 8,909,094 B2)
IPR2015-01966 (Patent 9,046,820 B1)

In Case IPR2015-01966, a Petition was filed on September 25, 2015 with exhibits, including Exhibit 1004. Paper 2; Ex. 1004. Upon review of the record in this case, the document filed as Exhibit 1004 appeared to be the wrong document as it was inconsistent with its docket title and the references made to it in the Petition where it was identified as a “Special Master’s Claim Construction Report.” A similar issue exists for Case IPR 2015-01954. On February 16, 2016, an email communication was sent to Petitioner concerning the issue, and on February 17, 2016, the Petitioner responded indicating the document filed as Exhibit 1004 was in error and seeking to file the correct exhibit.

In light of the inadvertent nature of the error, we authorize the filing of the correct “Special Master’s Claim Construction Report” in IPR2015-01966 and IPR2015-01954, and the expungement of Exhibit 1004 in IPR2015-01966 and IPR2015-01954

ORDER

Accordingly, it is

ORDERED that corrected exhibit “Special Master’s Claim Construction Report” may be filed in IPR2015-01966 and IPR2015-01954 within five days of this Order. So as not to disturb the citations in each record, the corrected exhibit should be re-filed as Exhibit 1004 and labeled accordingly; and

ORDERED that Exhibit 1004 in IPR2015-01966 and IPR2015-01954 is expunged.

IPR2015-01954 (Patent 8,909,094 B2)
