On December 7, 2016, a conference call was held in these proceedings among counsel for LG Electronics, Inc. (“Petitioner”), counsel for CORE Wireless Licensing S.A.R.L. (“Patent Owner”), and Judges McKone and Cherry. The Board requested the call after the parties emailed the Board regarding a dispute over whether Petitioner could file a corrected version of Exhibit 1016, which is identified as the deposition transcript of Patent Owner’s declarant, Scott Denning. Petitioner explained that through a clerical error it had filed only excerpts of the deposition, that only recently it had discovered the error, and that it wished to correct that error because it understood that 37 C.F.R. § 42.53(f)(7) required a complete copy of the deposition transcript be submitted to the Board. Patent Owner objected because it was concerned that Petitioner was attempting to supplement the record improperly on the eve of the hearing.

After a discussion with the Board, Petitioner represented to the Board that this was only an effort to ensure that the exhibit was in compliance with our rules and that Petitioner would not attempt at the hearing to cite or rely on portions of the deposition transcript that had not previously been cited. With those representations, Patent Owner agreed to waive its objections.

We granted authorization to Petitioner for the correction, and directed Petitioner to file the complete copy of Mr. Denning’s deposition transcript as a new exhibit number to avoid any inadvertent citations to previously uncited portions of the deposition transcript.

ORDER

It is

ORDERED that Petitioner is authorized to file, as a new exhibit number, the corrected version of Exhibit 1016.
